WELCOME TO 2005

WINCHESTER® SHORT MAGNUMS: WHY IT'S GOOD TO COME UP SHORT.

SINCE ITS INCEPTION IN 2001, THE WINCHESTER SHORT MAGNUM HAS BECOME THE MOST POPULAR CALIBER CONCEPT IN DECADES. WHAT COULD BE BETTER THAN MAGNUM POWER AND BALLISTICS IN SHORT-ACTION CONFIGURATIONS? RIFLES ARE LIGHTER AND EASIER TO PACK IN THE FIELD, FAR MORE ACCURATE AND ARE QUICKER TO CYCLE. — AND WITH THE ADDITION OF THE NEW HARD-HITTING 325 WSM, THOSE WHO ACTIVELY PURSUE ELK, MOOSE, BEAR AND OTHER LARGE GAME HAVE A CALIBER TO MATCH THE CONDITIONS. THE WSM CONCEPT HAS SIMPLY CHANGED THE WAY MAGNUM CALIBERS ARE PERCEIVED. FOR THE ULTIMATE IN EFFICIENCY, ACCURACY AND FUNCTIONALITY, IT'S GOOD TO COME UP SHORT.

CARTRIDGES SHOWN ARE ACTUAL SIZE.

THE 2.86" OVERALL LENGTH ALLOWS WSM CARTRIDGES TO BE USED IN SHORT-ACTION RIFLES. WITH CARTRIDGES 1/2" SHORTER THAN TRADITIONAL LONG ACTIONS, WSM RIFLES OFFER SHORTER BOLT THROW AND ARE LIGHTER WEIGHT.

35° SHOULDER ANGLE ALLOWS FOR MORE EFFICIENT POWDER BURN.

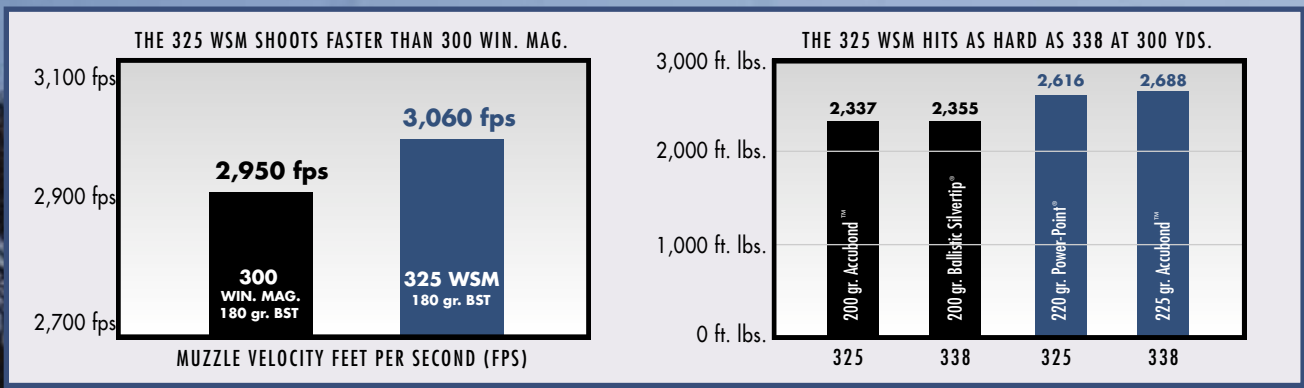

THE SHORT FAT POWDER COLUMN ALLOWS POWDER TO BURN AT A MORE UNIFORM RATE, IMPROVING ACCURACY AND PERFORMANCE.

MORE POWDER SURFACE AREA IS EXPOSED TO THE FIRING PRIMER, RESULTING IN A FASTER, MORE EFFICIENT POWDER BURN.

THE NEW 325 WINCHESTER SHORT MAGNUM: BUILT FOR BIG GAME.

FINALLY, A WSM CALIBER BUILT TO TAKE ON THE THICK-SKINNED AND HEAVY-SHOULDERED BIG GAME ANIMALS FOUND FROM ALASKA TO AFRICA. THE NEW 325 WSM IS THE LATEST ADDITION TO THE WSM FAMILY. COMBINING THE VELOCITY OF THE 300 WIN. MAG. WITH THE KNOCKDOWN POWER OF THE 338 WIN. MAG., THE 325 WSM OFFERS ALL THE POWER NEEDED TO TAKE ON BIG GAME ANIMALS. THE 325 IS LOADED WITH 180, 200 OR 220 GRAIN BULLETS, FURTHER EXPANDING THE CAPABILITIES AND USEFULNESS OF THIS GREAT CALIBER. THOSE WHO HUNT ELK, MOOSE, CARIBOU, BEAR AND EVEN THE ROBUST ANIMALS OF AFRICA WILL APPRECIATE HAVING THE POWERFUL KNOCKDOWN ENERGY AND VELOCITY OF A LARGE MAGNUM CARTRIDGE, WITHOUT THE WEIGHT AND BULK OF STANDARD MAGNUM CALIBERS. AS WITH ALL WSM CALIBERS, THE 325 IS BUILT ON A SHORT-ACTION CONFIGURATION, MAKING THE RIFLE LIGHTER WEIGHT, EASIER TO CARRY AND WITH A SHORTER BOLT THROW FOR FASTER FOLLOW-UP SHOTS. AND DON'T FORGET THE EXCEPTIONAL ACCURACY YOU'LL FIND WITH THE 325. AFTER ALL IS SAID AND DONE, THE 325 WSM MIGHT JUST BE THE PERFECT ALL-AROUND CALIBER FOR BIG GAME ANIMALS.

WINCHESTER®

RIFLES AND SHOTGUNS, THE GUNS THAT WORK™.

FROM RICH TRADITION TO HIGH-TECH INNOVATION, WINCHESTER® RIFLES AND SHOTGUNS LEAD THE INDUSTRY IN BRINGING THE TRIED AND TRUE TO THE NEXT LEVEL. INNOVATIONS SUCH AS THE CONTROLLED ROUND PUSH FEED ACTION ON THE MODEL 70, THE SELF-REGULATED GAS-OPERATION SYSTEM OF THE SUPER X2 AND THE .410 BORE CHAMBERING IN THE MODEL 94 CONFIGURATION PROVE WINCHESTER FIREARMS ARE BUILT FOR THE DEMANDS OF TODAY'S HUNTERS. THE DURABILITY, RELIABILITY AND DEPENDABILITY OF THESE FINE FIREARMS REST ON THE IMPECCABLE REPUTATION THEY HAVE BUILT FOR THEMSELVES. THE GUNS THAT WON THE WEST YEARS AGO HAVE WON THE HEARTS OF THOSE IN THE PRESENT, AND WILL CONTINUE TO DO SO IN THE FUTURE.

MODEL 70 WSM & WSSM EVOLUTION

THE LEVEL TO WHICH THE SHORT MAGNUM CONCEPT HAS TAKEN THE FIREARMS INDUSTRY IS UNPRECEDENTED. WITH IMPROVED BALLISTICS, FLATTER TRAJECTORIES AND LIGHTER, FASTER HANDLING RIFLES, WSM AND WSSM CALIBERS ARE HERE TO STAY, AND HAVE RAISED THE STANDARD FOR MAGNUM CALIBER RIFLES. WHILE THE VELOCITY AND ENERGY SURPASSES THAT OF COMPARABLE STANDARD CALIBERS, THE UNDERLYING BEAUTY LIES WITHIN THE RIFLES CHAMBERED FOR THESE SHORTENED CASES. BUILT ON SHORT- AND SUPER SHORT-ACTION CONFIGURATIONS, THESE RIFLES ARE LIGHTER WEIGHT AND QUICKER TO CYCLE, MAKING A MODEL 70 WSM OR WSSM THE IDEAL MAGNUM RIFLE TO BE TAKEN AFIELD. WSM AND WSSM: THE NEW STANDARD OF CALIBERS.

WSM.

WSM calibers are the new standard of magnum performance. No other calibers offer the efficiency, accuracy or performance of a WSM. It has been proven that shorter can be better, faster, more accurate and carry as much, or more, down-range energy as the traditional magnums. And, WSM calibers do all this in a compact, lighter weight, short-action rifle. Now available in four different calibers, 300 WSM, 7mm WSM, 270 WSM and the new 325 WSM (see inside front cover), a Model 70 chambered for one of these soon-to-be classic calibers is a rifle you can count on. With magnum ballistics and performance in a short-action, lightweight rifle, WSM calibers offer everything a serious big game hunter desires.

WSSM.

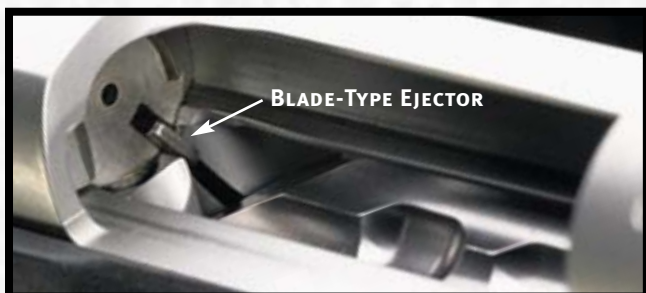

With an overall cartridge length of just 2.36", WSSM calibers have taken the short magnum concept to a new level — a super-short level. These cartridges outperform their standard caliber counterparts and their acceptance in the industry is unprecedented. WSSM calibers have made their mark and are here to stay. These compact cartridges deliver high-velocity in an ultra-quick cycling and lightweight rifle. The incredibly short, fat cases make the 243 WSSM and 223 WSSM particularly effective for varmints and predators, while the velocity and knockdown power of the 25 WSSM make it perhaps the best whitetail cartridge ever developed.

TIMELESS, PROVEN FEATURES. THE MODEL 70 LEAVES NOTHING TO CHANCE.

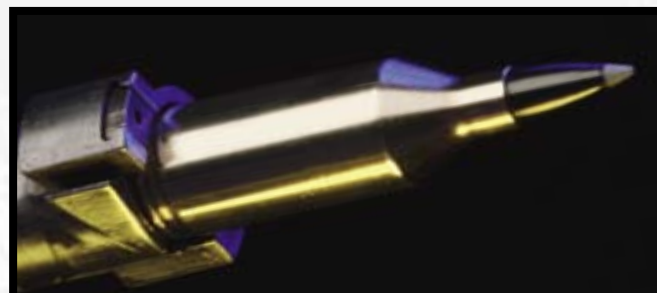

CONTROLLED ROUND FEED BOLT. If there were a single feature responsible for the Model 70 being labeled the “bolt-action rifle of the century,” it would arguably be the classic, Controlled Round Feed (CRF) bolt design. The massive claw extractor secures approximately $\frac{1}{4}$ of the cartridge base and fully controls the cartridge as it enters the chamber. This proven design also allows the cartridge to be extracted — even if it is not yet fully chambered.

BLADE-TYPE EJECTOR. A blade-type ejector allows full control of the ejection force; an advantage for target shooters and hunters alike.

CONTROLLED ROUND PUSH FEED BOLT. If you’ve ever wished for the sureness of classic, Controlled Round Feed (CRF) with the single shot loading convenience of push feed bolt designs, the Controlled Round Push Feed bolt (CRPF) on some Model 70 rifles could be your solution. Like the classic CRF bolt, this innovative design secures the base of the cartridge when chambering for a straight shot into the chamber, protecting the bullet point. It also allows for easy extraction, even if the cartridge is not fully chambered. However, like a push feed design, the CRPF extractor rides over the cartridge rim for direct-to-the-chamber single shot loading.

THREE POSITION SAFETY. The three position safety on the Model 70 has been proven effective and highly popular by hunters and shooters for more than fifty years. Not only is it a convenient reach with the trigger hand, but when the selector is in the middle position the action can still be operated.

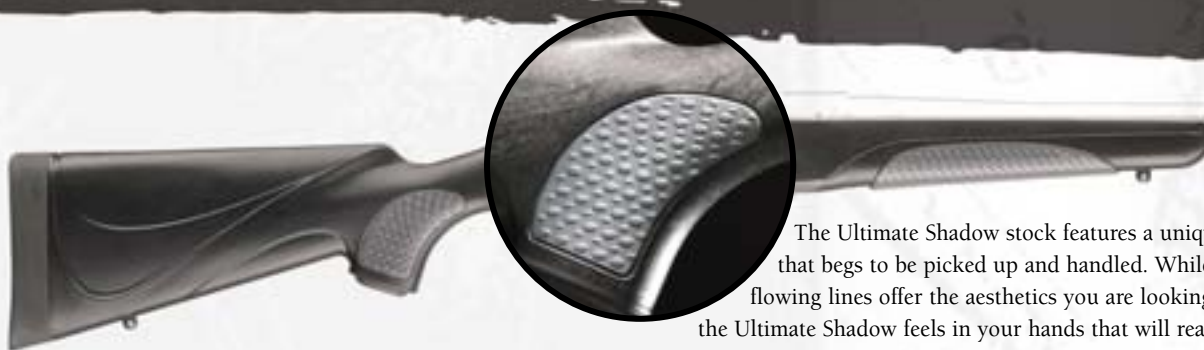

ONE PIECE FLOORPLATE/TRIGGER GUARD. Look closely at most rifles and it’s easy to pick out the details that matter. The one-piece floorplate and trigger guard design found on nearly all Model 70 rifles is one such detail. This touch adds a clean, finished look, while adding rigidity and strength to the action to ensure correct floorplate and latch alignment.

PREMIUM RECOIL PAD. You hardly notice the recoil from your rifle when taking a shot at a big buck. It’s the rounds you fire from the bench while sighting-in and practicing that take their toll. Model 70 rifles place an emphasis on comfort and recoil reduction. Look for the finest energy-absorbing recoil pad designs on Winchester® rifles chambered in magnum calibers — where it matters most.

MODEL 70 STOCKS

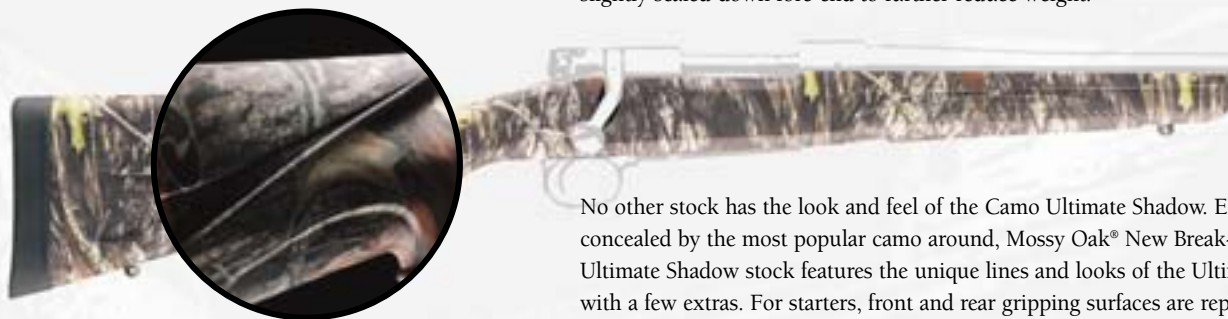

WHEN IT COMES TO FORWARD THINKING, MODERN STOCK DESIGNS, THE WINCHESTER® MODEL 70 ULTIMATE SHADOW AND SUPER SHADOW LEAD THE FIELD. THESE STOCKS WERE DESIGNED FROM THE GROUND UP – NOT JUST TO BE DIFFERENT, BUT BETTER, WITH MATERIALS AND FEATURES HUNTERS AND SHOOTERS WILL APPRECIATE AS MUCH AS THE GREAT LOOKS. MOST IMPORTANTLY, THESE STOCKS RETAIN THE FAMILIAR, FAST-HANDLING, COMFORTABLE FEEL YOU EXPECT FROM THE WINCHESTER MODEL 70: THE RIFLE THAT HAS ENDEARED ITSELF TO GENERATIONS OF HUNTERS.

THE ULTIMATE SHADOW STOCK CONCEPT

Great looks with the classic feel you recognize.

The Ultimate Shadow stock features a unique look and feel that begs to be picked up and handled. While the contoured, flowing lines offer the aesthetics you are looking for, it's how the Ultimate Shadow feels in your hands that will really grab your attention. The lightweight design is meant to be packed atop the highest mountain peaks and the comfortable, rubberized, overmolded gripping surfaces on the pistol grip and fore-end add the control and comfort needed in a durable, reliable rifle. This stock design is rugged, strong, light and will stand up to weather and hard use afield. And you'll be impressed with the proprietary recoil pad which rivals the finest pads available. The Model 70 Ultimate Shadow is available in Stainless or Blued models, in your choice of seven WSM and WSSM calibers. WSSM rifles feature a slightly scaled-down fore-end to further reduce weight.

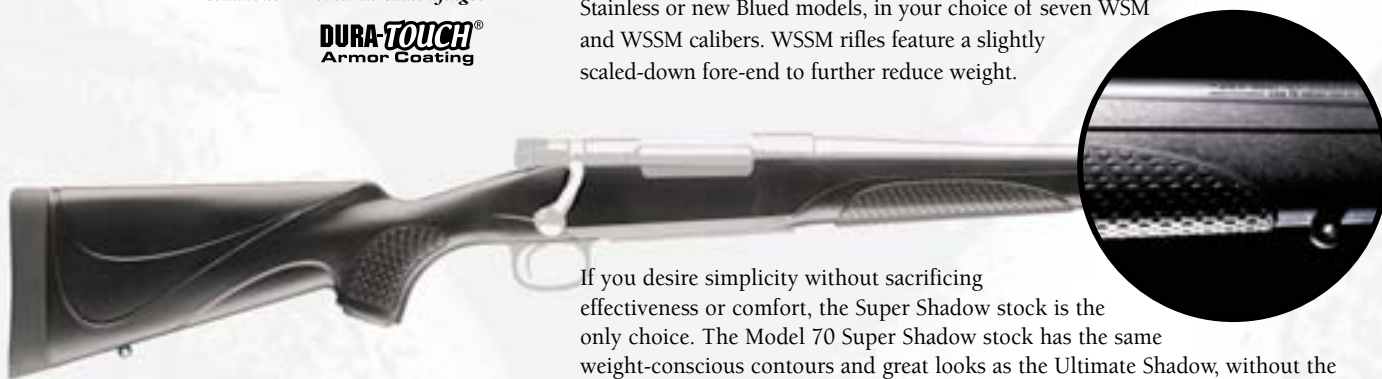

THE CAMO ULTIMATE SHADOW STOCK CONCEPT

A standout — even in camouflage.

DURA-TOUCH®
Armor Coating

No other stock has the look and feel of the Camo Ultimate Shadow. Effectively concealed by the most popular camo around, Mossy Oak® New Break-Up®, the Camo Ultimate Shadow stock features the unique lines and looks of the Ultimate Shadow — with a few extras. For starters, front and rear gripping surfaces are replaced with grip-enhancing oval-dot surfaces coated with the patented Dura-Touch® Armor Coating for improved grip and feel. Sleek stock contours look great and reduce weight while maintaining the sought after feel of a Model 70 rifle. A specially designed recoil pad handles heavy recoil. The Model 70 Camo Ultimate Shadow is available in Stainless or new Blued models, in your choice of seven WSM and WSSM calibers. WSSM rifles feature a slightly scaled-down fore-end to further reduce weight.

THE SUPER SHADOW STOCK CONCEPT

Flowing lines, fluid motion.

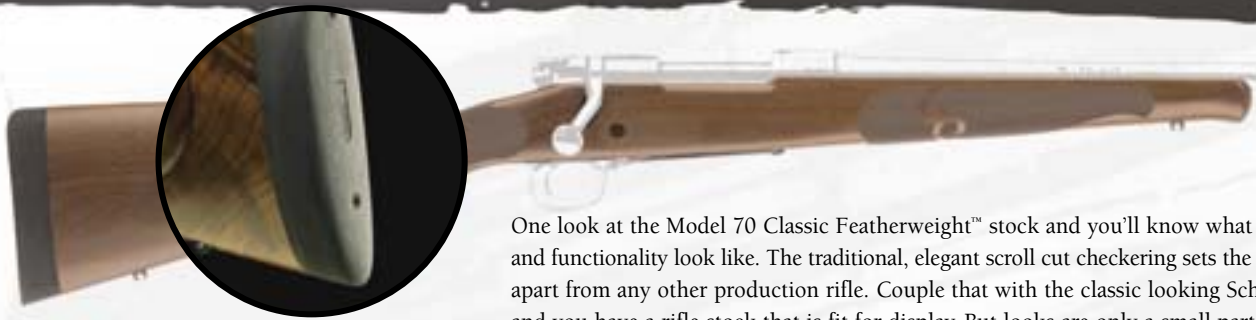

If you desire simplicity without sacrificing effectiveness or comfort, the Super Shadow stock is the only choice. The Model 70 Super Shadow stock has the same weight-conscious contours and great looks as the Ultimate Shadow, without the rubber overmoldings. Instead, the Super Shadow incorporates an oval-dot gripping surface that is integrated into the reinforced composite construction. A built-in blind magazine cover further reduces overall rifle weight. The Super Shadow includes a premium, proprietary recoil pad. Should you shoulder a Model 70 Super Shadow and you'll notice immediately that it is one of the rare rifles that feels as good in your hands as it looks. Available in all seven WSM and WSSM calibers — including the new 325 WSM. WSSM rifles feature a slightly scaled-down fore-end to further reduce weight.

THE RIFLEMAN'S RIFLE

MODEL 70

FEW THINGS SYMBOLIZE THE NOTION OF THE BIG GAME HUNT BETTER THAN A BOLT-ACTION RIFLE WITH A FINELY FITTED WOOD STOCK. TO THAT END, THERE IS THE MODEL 70 AND ITS WEALTH OF AVAILABLE WOOD STOCKS. CLASSICS LIKE THE FEATHERWEIGHT™, THE NEW SPORTER III AND THE NEW SUPER GRADE III OFFER THE TRADITIONAL LOOK AND FEEL OF THE “RIFLEMAN’S RIFLE,” AS DOES THE SAFARI EXPRESS WITH ITS STEEL STOCK CROSSBOLTS. MOST WOOD STOCK MODEL 70S FEATURE THE RECOIL-REDUCING PACHMAYR® DECELERATOR® RECOIL PAD TO REDUCE FLINCHING. DON’T OVERLOOK THE LAMINATED STOCKS OF THE LAMINATED WSM AND COYOTE. THESE STOCKS OFFER EXCEPTIONAL STABILITY AND EXTREME DURABILITY WITH THE ELEGANT LOOK OF WOOD. REGARDLESS OF THE STOCK YOU CHOOSE, ALL ARE FITTED WITH THE FINEST BOLT-ACTION AROUND.

THE FEATHERWEIGHT™ STOCK

What a rifle stock should be.

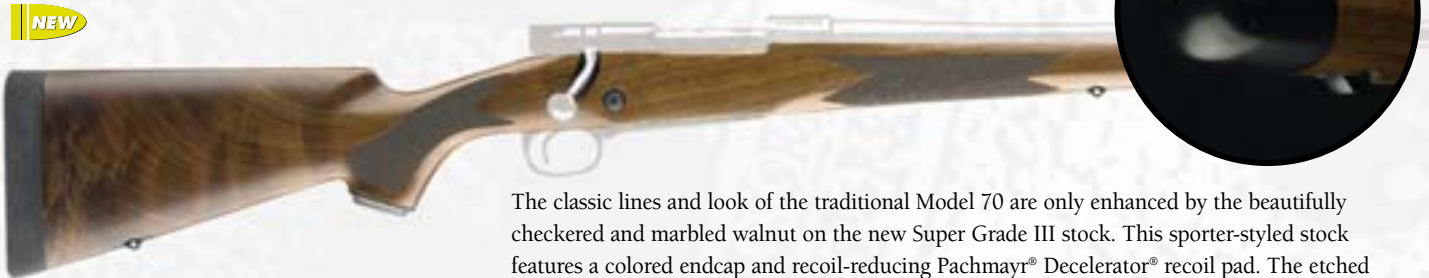

One look at the Model 70 Classic Featherweight™ stock and you’ll know what quality, beauty and functionality look like. The traditional, elegant scroll cut checkering sets the Featherweight apart from any other production rifle. Couple that with the classic looking Schnabel fore-end and you have a rifle stock that is fit for display. But looks are only a small part of the beauty of the Featherweight. Its thin, lightweight design makes the Featherweight point like a dream and a pleasure to carry in the field. The Pachmayr® Decelerator® recoil pad on WSM models makes it enjoyable to shoot. Throw the Featherweight stock to your shoulder and you’ll find a perfectly balanced rifle with an angled comb that places your head in perfect alignment with your scope. The Featherweight is what a rifle stock should be.

THE SPORTER III STOCK

A true rifleman’s stock.

The new Sporter III stock offers the look and feel of classic Model 70’s, but with a lighter weight design to match the quick-handling short-action WSM and WSSM calibers. While the Sporter III maintains the classic look of the “Rifleman’s Rifle,” discriminating hunters will appreciate the improved fit and feel of this new stock. A thinner stock and fore-end will be the first thing you’ll notice when shouldering the new Sporter III. You’ll find your hand wraps comfortably around the trim new pistol grip with its more open feel. The straight comb stock and perfectly angled cheekpiece help with eye alignment, making the Sporter III an extremely comfortable rifle to shoot. Add a Pachmayr® Decelerator® recoil pad for greater recoil reduction and you’ll find a truly pleasant rifle to hunt with.

THE SUPER GRADE III STOCK

A classy rifle deserves a classy stock.

The classic lines and look of the traditional Model 70 are only enhanced by the beautifully checkered and marbled walnut on the new Super Grade III stock. This sporter-styled stock features a colored endcap and recoil-reducing Pachmayr® Decelerator® recoil pad. The etched steel stock crossbolt not only adds strength to the stock, it, along with inletted swivel studs and a metallic grip cap, add to its beauty. For comfort and functionality, the straighter comb and finely cut shadowline cheekpiece place your eye in perfect alignment with the scope, ensuring a consistent sight picture and ease of shooting. The new Super Grade III stock, with all of its beauty and functionality, is the epitome of classic sporting rifles.

MODEL 70

READY FOR ACTION. CONTROLLED ROUND FEED WITH CLAW EXTRACTOR.

NEW

MODEL 70 CLASSIC CAMO ULTIMATE SHADOW, BLUED

Be heard, not seen. (Scope not included.)

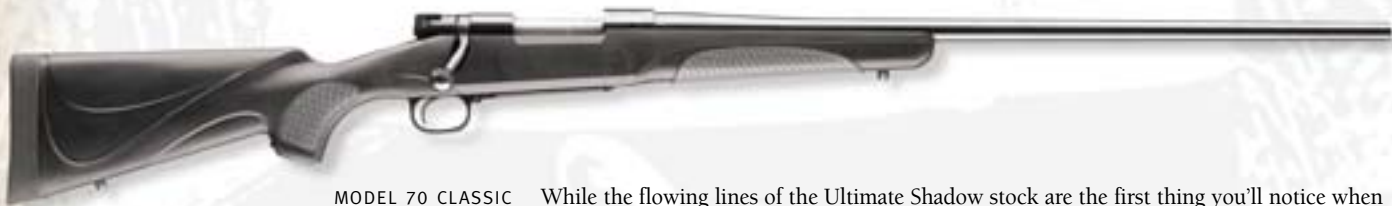

DURA-TOUCH
Armor Coating

From treestands in whitetail-rich hardwoods to the elk-filled mountains of the West, the new Camo Ultimate Shadow, Blued is built for serious hunters who are looking for a serious rifle. The blued barrel is free-floating in the Mossy Oak® New Break-Up® camo finish composite stock to provide excellent accuracy out of the box. The Dura-Touch® finish and oval-dot gripping surface on the pistol grip and fore-end offer superb handling and control of the rifle. Chambered in all WSSM and WSM calibers, including the new, heavy-hitting 325 WSM, the Camo Ultimate Shadow, Blued will be a favorite of both big game and varmint hunters alike. See chart on page 50.

THE WINCHESTER® MODEL 70 – NO OTHER RIFLE HAS SUCH A RICH HISTORY OF DEPENDABLE PERFORMANCE. IT SERVES AS A TIMELESS EXAMPLE OF WHAT A BOLT-ACTION RIFLE SHOULD BE. THE THREE-POSITION SAFETY IS RENOWNED FOR EASY USE. THE BARREL RIFLING ON MANY MODELS IS HAMMER-FORGED, MEANING EXCELLENT TOLERANCES FOR BETTER ACCURACY. THE CLASSIC, CONTROLLED ROUND FEED ACTION IS A MAINSTAY AND CONTINUES TO MAKE THE MODEL 70 LINE THE MOST RELIABLE AND SMOOTHEST CYCLING IN THE INDUSTRY. THE MASSIVE CLAW OF THE CONTROLLED ROUND FEED BOLT CAPTURES THE BASE OF THE CARTRIDGE SECURELY, WHISKING IT RIGHT TO THE CHAMBER AS FAST AS YOU CAN WORK THE BOLT. NEWLY DESIGNED STOCKS ARE VERY IMPRESSIVE, PROVIDING A SURE HOLD AND BALANCED HANDLING. THESE FEATURES ARE WHAT HAVE MADE THE MODEL 70 THE “RIFLEMAN’S RIFLE” FOR OVER 50 YEARS.

MODEL 70 CLASSIC
ULTIMATE SHADOW, BLUED

Available in all seven WSM and WSSM calibers.

While the flowing lines of the Ultimate Shadow stock are the first thing you'll notice when you cast your eyes upon this fine rifle, picking one up yields a different sensation. The Ultimate Shadow features integrated, rubberized, oval-dot gripping surfaces on the pistol grip and fore-end to ensure a comfortable, secure hold even when wet or cold. For all day trips, you'll appreciate its lightweight design. Traditional blued 24" barrel on WSM, and 22" barrel on WSSM, both with the classic, Controlled Round Feed action in your choice of the seven WSM and WSSM chamberings. See chart on page 50.

MODEL 70 CLASSIC
ULTIMATE SHADOW, STAINLESS

All-weather protection and control.

The Winchester® Ultimate Shadow is one of the most innovative rifles to roll out of the industry in many years. Feeling as good as it looks, the lightweight stock, with rubberized, overmolded gripping surfaces, comes to your shoulder naturally. The barrel, action, floorplate and most internal components are stainless steel, making them ready for any type of weather. The classic, Controlled Round Feed action positively picks up and feeds every round from the magazine. Available in WSM and WSSM chamberings including the new 325 WSM. See chart on page 50.

MODEL 70 CLASSIC
CAMO ULTIMATE SHADOW, STAINLESS

The Ultimate rifle, now in hard hitting 325 WSM.

The Camo Ultimate Shadow, Stainless Model 70 is unlike any other rifle on the market. With the sleek lines of the lightweight composite stock, the integrated oval-dot gripping surfaces and the stainless steel barrel, action and internal components, the Camo Ultimate Shadow, Stainless simply shrugs off the elements. Underneath the grip enhancing Dura-Touch® finish lies Mossy Oak® New Break-Up® camo, which further separates this unique rifle from any other. The Camo Ultimate Shadow is available in your choice of WSM calibers, including the new 325 WSM, with a 24" barrel and a 22" barrel in the WSSM versions. See chart on page 50.

TAKING BEAUTY AFIELD. CLASSIC RIFLES FOR CLASSIC HUNTS.

MODEL 70 CLASSIC
SAFARI EXPRESS

Don't be caught without enough gun.

African big game hunters demand the most reliable and time-tested bolt action rifle available on the market. The Model 70 Classic Safari Express happens to be that rifle. This rifle is built for heavy cartridges and has been designed to exceed the needs of today's Africa-bound hunters, providing them with legendary reliability — when it's needed most. Comfortable and quickly shouldered, you'll appreciate the classic Model 70 action with pre-'64 type claw extractor design, the Pachmayr® Decelerator® recoil pad, dual recoil lugs and express-style rear sight. 375 H&H, 416 Rem. Mag. or 458 Win. Mag. calibers available. For once-in-a-lifetime hunts, this is the rifle you need. See chart on page 50.

AS HUNTERS WE ARE DRAWN. DRAWN TO THE YELLOW GRASS PLAINS OF THE SERENGETI, DRAWN TO THE BONE-CHILLING BUGLE OF A DISTANT ROCKY MOUNTAIN ELK, DRAWN TO EARLY MORNING RISING AND HEART-POUNGING PURSUITS. SO TOO ARE WE DRAWN TO THE FINELY-CRAFTED AND BEAUTIFULLY ENDOWED RIFLES THAT WE TAKE WITH US. RIFLES WITH BEAUTIFULLY FINISHED WOOD STOCKS, INTRICATE CUT CHECKERING AND SPECIALIZED FEATURES BECOME MORE THAN JUST "DEER RIFLES." THEY BECOME HERITAGE, TRADITION AND ART. THE WINCHESTER® SAFARI EXPRESS AND THE SUPER GRADE III SERIES ARE JUST SUCH RIFLES. THE SUPER GRADE III MODELS FEATURE BEAUTIFULLY GRAINED WALNUT STOCKS, BLACK ENDCAPS AND A WIDE RANGE OF CALIBERS, INCLUDING THE LATEST EDITION TO THE WSM FAMILY, THE 325 WSM. THE SAFARI EXPRESS UTILIZES THE CLASSIC PRE-'64 TYPE CLAW EXTRACTOR ACTION AND IS CHAMBERED IN THE MOST POPULAR AND EFFICIENT AFRICAN GAME CALIBERS, WITH AN EXPRESS-STYLE OPEN REAR SIGHT.

NEW

RMEF MEDALLION ON GRIP CAP.

MODEL 70 CLASSIC
SUPER GRADE III, RMEF

Available in 325 WSM and 300 WSM calibers.

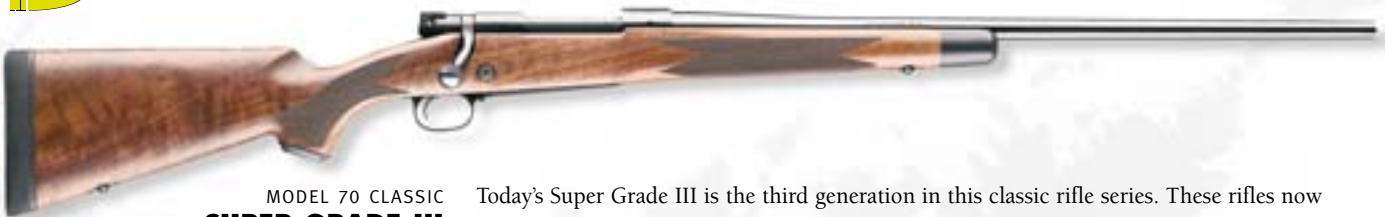

The Rocky Mountain Elk Foundation and Winchester® Rifles and Shotguns have come together to help preserve the West's most prized game animal. A portion of all sales from this rifle will help support the RMEF in improving elk habitat and engaging in elk research across the country. This limited edition rifle features an elegantly finished, sporter-style, super-grade stock with shadowline cheekpiece, capped off with a Pachmayr® Decelerator® recoil pad. The proven stainless steel action and barrel are chambered for the very popular 300 WSM and the new 325 WSM cartridges. A special RMEF emblem is added to the grip cap. (Limited quantities.) See chart on page 50.

SHADOWLINE
CHEEKPIECE
FEATURED ON THE
SUPER GRADE III.

NEW

MODEL 70 CLASSIC
SUPER GRADE III

Also available in all four powerful WSM calibers.

Today's Super Grade III is the third generation in this classic rifle series. These rifles now feature a trimmer, sporter-style stock with a recoil absorbing Pachmayr® Decelerator® recoil pad and shadowline cheekpiece for extra comfort. You'll notice and appreciate the attention to small touches on the Super Grade III. Details like a steel stock crossbolt, added to provide additional strength against recoil, and swivel studs that are inletted for a finished look are expected on a rifle of this quality. One-piece, picture frame floorplate design adds rigidity and a clean, custom look to the action. The new short-action version is scaled to optimize performance from WSM calibers. See chart on page 50.

MODEL 70 CLASSIC
COMPACT

Smaller does not mean compromise.

Smaller adults or younger shooters looking for the perfect "mountain rifle," will find the Model 70 Classic Compact the ideal choice. With a short 13" length of pull, shallower stock profile and 20" barrel, the Classic Compact is easy to carry and quick to shoulder. Available in 243 Win. or 7mm-08 Rem. calibers with the classic, Controlled Round Feed action with claw extractor. For light recoil and an excellent fit for smaller shooters, this Model 70 is the best choice ever. See chart on page 50.

MODEL 70

THERE IS A REASON THE MODEL 70 IS KNOWN AS THE “RIFLEMAN’S RIFLE.” TAKE A LOOK AT THE FEATHERWEIGHT™ AND SPORTER III. NO OTHER RIFLE EMBODIES THE SOLID CHARACTERISTICS OF THESE TWO RIFLES. CHAMBERINGS INCLUDE EVERYTHING FROM THE HIGH-VELOCITY WSSMs, TO STANDARD LONG AND SHORT-ACTION CALIBERS, AND EVEN THE HEAVY-HITTING WSM CALIBERS, INCLUDING THE NEW 325 WSM. ALL FEATURE THE RELIABLE CONTROLLED ROUND FEED ACTION WINCHESTER® RIFLES HAVE BUILT A REPUTATION AROUND. FROM THE CLASSIC CUT CHECKERING OF THE FEATHERWEIGHT TO THE NOW TRULY TRIMMER, TRADITIONAL STYLE STOCK OF THE SPORTER, THESE RIFLES ARE THE GUNS THAT WORK™.

NEW

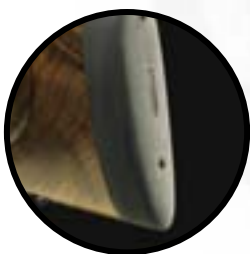

MODEL 70 CLASSIC
FEATHERWEIGHT™, STAINLESS

The “Rifleman’s Rifle” — with a new twist.

While some rifles are built for looks and some for function, the new Model 70 Featherweight™, Stainless offers both beauty and performance. With the traditional, cut checkering pattern and handsome Schnabel fore-end of the classic Featherweight, the flagship of the Model 70 line takes on a new and exciting look with a weather-resistant stainless barrel and receiver. And while the looks of the new Featherweight set it apart from the competition, don't overlook the Pachmayr® Decelerator® recoil pad on WSM models, along with its Controlled Round Feed action, convenient three-position safety and dead-on accuracy. The new Featherweight, Stainless is chambered in all WSSM and WSM calibers, including the new 325 WSM, and a variety of standard calibers. Standard calibers include the traditional Winchester® Model 70 recoil pad. See chart on page 50.

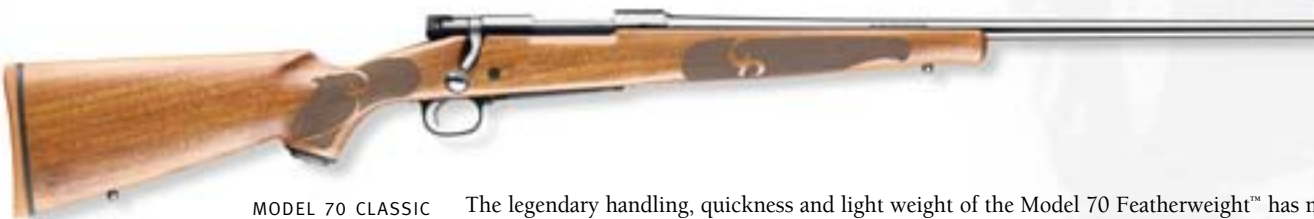

THE PACHMAYR® DECELERATOR® RECOIL PAD IS STANDARD ON MANY MODEL 70 RIFLES.

MODEL 70 CLASSIC
FEATHERWEIGHT™ (LEFT-HAND)

Left-handed shooters deserve the finest.

MODEL 70 CLASSIC
FEATHERWEIGHT™

The “Bolt-Action Rifle of the Century.”

The legendary handling, quickness and light weight of the Model 70 Featherweight™ has made it famous among hunters. No wonder it's been proclaimed “the bolt-action rifle of the century.” The classic Model 70 action with Controlled Round Feed is highlighted by a jeweled bolt and knurled bolt handle. The popular angled comb stock still features the Schnabel fore-end — just like the originals — and is satin finished with elegant cut checkering. Available in the most popular long, short and super short action calibers, including WSM and WSSM calibers — even the new 325 WSM — in both left- and right-handed models. A Pachmayr® Decelerator® recoil pad is standard on WSM calibers. Other calibers include the traditional Winchester® Model 70 recoil pad. See chart on page 50.

MODEL 70 CLASSIC
SPORTER III (LEFT-HAND)

Trimmer stock dimensions improve a classic design.

NEW

THE HANDSOME CONTOURS OF THE NEW SPORTER III STOCK ARE INCREDIBLE, WITH A SCULPTED CHEEKPIECE THAT OFFERS INSTANT SCOPE ALIGNMENT. (RIGHT-HAND MODEL SHOWN.)

MODEL 70 CLASSIC
SPORTER III

*Smoother lines and better fit.
Now available in 325 WSM. (Scope not included.)*

The new Sporter III stock is improved with a trimmer fore-end and stock, with a more open pistol grip and a modest pad footprint. This new stock is easier and lighter to carry, and comfortably comes to the shoulder. The satin-finish stock features cut checkering plus a comfortable cheekpiece for superb balance and precise scope alignment. Available in both right- and left-hand versions, in long and short-action calibers and WSM calibers — including the new 325 WSM. The Pachmayr® Decelerator® recoil pad offers greater protection against recoil. Classic Controlled Round Feed action with claw extractor. WSM models are built around a scaled-down stock. See chart on page 50.

MODEL 70 CLASSIC
STAINLESS

Weather-resistance for real-world hunting.

The Classic Stainless is tough and rugged with a weather-resistant stainless steel floorplate, barrel, action and internal components. Add a traditional, sporter-style style, composite stock for a very serious rifle. The stock easily takes on hot, humid conditions and extreme cold without affecting accuracy. All Classic Stainless, Controlled Round Feed actions feature a claw extractor and a reliable, fixed ejector. Choose from several hard-hitting long action calibers. (375 H&H version with open sights is pictured. Other models do not include sights.) See chart on page 50.

MODEL 70 CLASSIC
LAMINATED WSM

Eye-catching looks with performance to match.

Laminated rifle stocks are appreciated for their strength, durability and unique look. This fine example is certainly no exception. The laminated, sporter-style stock, known for its structural stability in the driest and wettest conditions, forms a solid platform — a perfect match for the Controlled Round Feed action of the Model 70. A high-performance recoil pad dissipates recoil from the four available WSM calibers efficiently. The richly blued sporter-weight barrel measures 24" for the perfect blend of balance, light weight and accurate performance. See chart on page 50.

MODEL 70

**CONTROLLED
ROUND
PUSH FEED.
THE BEST OF
BOTH WORLDS.**

MODEL 70 BROWN LAMINATED
COYOTE, STAINLESS

For varmints and big game alike.

MODEL 70 BROWN LAMINATED
COYOTE, BLUED

*New look, proven results.
(Scope not included.)*

If you're looking for a proven specialty varmint rifle design that can double as an effective big game rifle, look no further than the Coyote. Available in a Stainless model or the new Blued version, the Coyote is designed for the hunter who needs both an easy-to-carry rifle and one capable of long-range accuracy. To that end, the Coyote pairs an accurate, 24" medium-heavy barrel with a rugged laminated stock with a reverse taper fore-end. The unique stock design is perfect for using a bipod, shooting sticks or sandbags. The impressive Controlled Round Push Feed bolt — which combines the best aspects of a push feed and Controlled Round Feed bolt — is standard. The Coyote is a great all-in-one rifle, built for any situation. Standard short-action, WSM and WSSM calibers are available, including the new 325 WSM. Additionally, the 223 Rem. is now chambered in the super-short action. See chart on page 50.

THE CONTROLLED ROUND PUSH FEED (CRPF) BOLT IS DESIGNED TO OFFER THE BEST ASPECTS OF THE BENCH REST SHOOTER'S FAVORITE PUSH FEED ACTION AND THE CLASSIC, MODEL 70 CONTROLLED ROUND FEED ACTION APPRECIATED BY EXPERIENCED HUNTERS. YOU CAN RELY ON THIS GREAT NEW DESIGN TO CONSISTENTLY FEED AND EXTRACT CARTRIDGES RELIABLY IN BOTH SHORT-ACTION AND SUPER-SHORT-ACTION CONFIGURATIONS. WITH AN ACTION THIS VERSATILE, THE RIFLES BUILT AROUND IT ARE WELL SUITED FOR ANY HUNTING SITUATION. HUNTERS AFTER WHITETAIL AND OTHER BIG GAME WILL APPRECIATE THE LIGHTWEIGHT MODEL 70 SUPER SHADOW. MOBILE HUNTERS WHO DEMAND LONG-RANGE ACCURACY NEED LOOK NO FURTHER THAN THE MODEL 70 COYOTE AND COYOTE LITE, AVAILABLE IN ALL SEVEN WSM AND WSSM CALIBERS. IF VARMINTS OR BENCH REST SHOOTING IS ON THE MENU, THE STEALTH II IS READY FROM THE BOX.

MODEL 70
SUPER SHADOW, BLUED
The future deer rifle of the century.

The Model 70 Super Shadow stock has the same weight-saving contours and great looks as the Ultimate Shadow stock, without the rubber overmoldings. The integrated blind magazine system replaces the hinged floorplate to further reduce weight. The highly acclaimed Super Shadow utilizes an oval-dot gripping surface to provide secure handling in all conditions. Other features include the Controlled Round Push Feed bolt, designed to offer the best features of a push feed and Controlled Round Feed designs, and a specially designed recoil pad. You'll notice the Super Shadow is one of the rare rifles that actually feels as good as it looks. Available in all WSM and WSSM calibers, including the new 325 WSM. See chart on page 50.

NEW

MODEL 70
COYOTE LITE, STAINLESS
*Extreme accuracy in a very mobile rifle.
(Scope not included).*

NEW

MODEL 70
COYOTE LITE, BLUED
Pinpoint accuracy in a field gun.

The new for 2005 Coyote Lite is the ultimate, in-the-field, long-range hunting rifle — without the added weight. Available in Stainless and matte-finished Blued models, the Coyote Lite features the same Controlled Round Push Feed action as the original Coyote, in a lightweight carbon fiber/fiberglass composite Bell and Carlson stock with skeletonized aluminum block bedding for superb accuracy. Lightning cuts on the stock fore-end reduce weight and vent the barrel for additional cooling during long days of shooting. The medium-heavy, 24" fluted barrel maintains accuracy and reduces weight. A Pachmayr® Decelerator® pad is included. Available in 223 Rem., all WSSM calibers and WSM calibers, including the new 325 WSM. See charts on pages 50 and 51.

MODEL 70
STEALTH II
Conquer your varmint hunting and target challenges.

The heavyweight Stealth II varmint rifle is the ideal rifle when long-range accuracy is required. The extremely stable stock includes one-piece aluminum pillar block bedding for even greater accuracy. An additional front stud makes mounting a bipod to the wide fore-end easy, while checkering on the comfortable grip provides a secure hold. The Controlled Round Push Feed bolt secures the cartridge, allowing the ejection force to be controlled and makes shooting single rounds (loading directly into the chamber) possible. The Stealth II is available in all three hot WSSM calibers plus 22-250 Rem. and 308 Win. Add the accurate, 26" heavy barrel, one-piece floorplate and trigger guard and non-glare matte finish on all exposed surfaces, and you have the ultimate varmint rifle — and a new standard for riflemen everywhere. See chart on page 51.

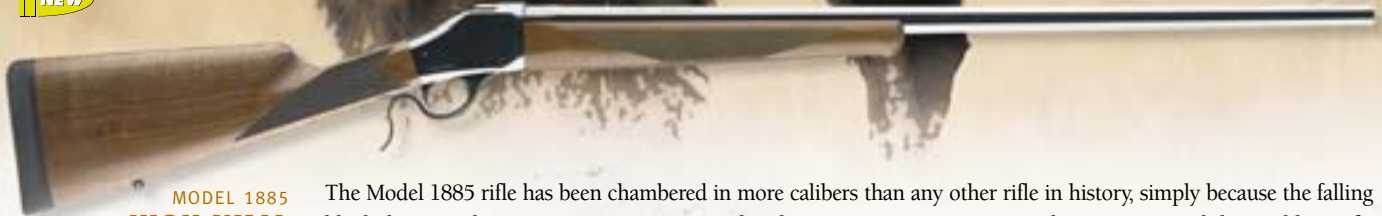

HISTORICAL

ONE CLEAN SHOT. A HERITAGE OF EXCEPTIONAL ACCURACY.

NEW

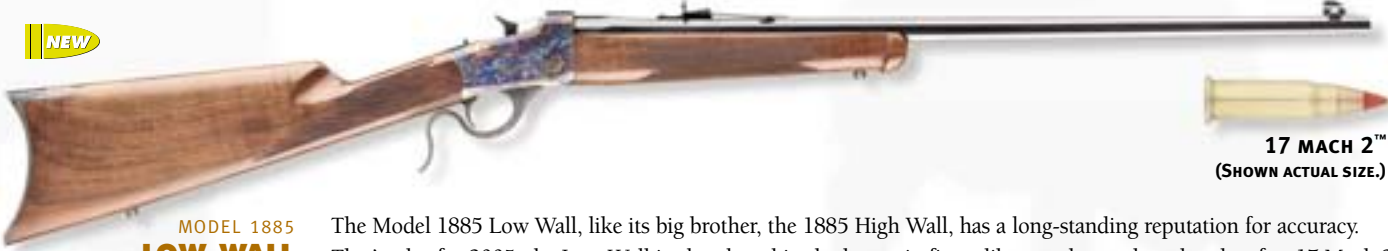

**MODEL 1885
HIGH WALL
HUNTER WSM**

WSM calibers for the ultimate rifle.

The Model 1885 rifle has been chambered in more calibers than any other rifle in history, simply because the falling block design is the strongest, most time-tested and accurate action ever invented. It is recognized the world over for strength and accuracy . . . and one clean shot. For 2005, the High Wall is chambered in the searing 270 WSM, 7mm WSM and 300 WSM calibers. Pick up a Model 1885 and understand why hunters and marksmen have cherished this rifle for more than 125 years. The compact receiver with authentic, long top tang and free-floating 28" full octagon barrel are drilled and tapped for a scope (no sights) and centrally balanced to the classic Schnabel forearm. The premier Pachmayr® Decelerator® recoil pad is fit to a walnut stock. The trigger is fully adjustable. Whether you are a seasoned or beginning shooter, the 1885 is ready for any hunt, because every ounce of this rifle is designed for maximum accuracy. See chart on page 51.

NEW

**MODEL 1885
LOW WALL
17 MACH 2™**

Rimfire performance from a timeless rifle.

**17 MACH 2™
(SHOWN ACTUAL SIZE.)**

The Model 1885 Low Wall, like its big brother, the 1885 High Wall, has a long-standing reputation for accuracy. That's why, for 2005, the Low Wall is chambered in the latest rimfire caliber on the market, the ultra-fast 17 Mach 2™. The 17 Mach 2 is essentially a 22 Long Rifle cartridge necked-down to 17, boasting speeds of up to 2,100 fps with fantastic accuracy. Just as shooters have for over 125 years, you can count on the solid, falling block action to deliver this hot new cartridge to the target. After firing, lowering the lever ejects the spent cartridge, while a convenient ejector/selector switch allows you to either extract or eject the spent case in any direction — perfect for both left- and right-handed shooters. The gorgeous case-colored receiver, buttplate and lever, along with fine line checkering give this gem the classic looks to match its hot ballistics. Drilled and tapped for a scope. See chart on page 51.

WHAT'S A COWBOY WITHOUT A MODEL 94?

TRAILS END™ COWBOY ACTION.
CHAMBERED IN THREE TIMELESS CALIBERS.
(SHOWN ACTUAL SIZE.)

TOP-TANG SAFETY.

MODEL 94
TRAILS END™
OCTAGON CASE-COLORED

The original is back; yet every Model 94 is unique.

Cowboys have been shooting Winchester® rifles for more than a century. With a flair for the western tradition, this Trails End™ features an elegant case-colored receiver, forearm cap, lever and crescent buttplate, with a 20" tapered octagon barrel, just like the most popular models in history. The straight grip walnut stock and forearm provide the balance, feel and looks that are symbolic of the Model 94s of years gone by. The full-length magazine holds 11 rounds of the most popular cowboy action calibers: 357 Mag., 44 Rem. Mag. or 45 Colt. See chart on page 51.

FEW RIFLES CAN BOAST THE COMBINATION OF LOOKS, HARDWORKING PERFORMANCE AND RELIABILITY OF THE MODEL 94. FOR OVER 100 YEARS, THE AGELESS WINCHESTER® MODEL 94 HAS BEEN A FAVORITE OF COWBOYS, HUNTERS AND SHOOTERS. THROUGH THE YEARS, NOT MUCH HAS CHANGED FROM THE ORIGINAL MODEL 94. THE COMPACT RECEIVER KEEPS THE WEIGHT CENTERED BETWEEN YOUR HANDS. A NOTICEABLE LACK OF AN EXTERNAL LEVER HINGE BELOW THE RECEIVER MAKES ONE-HANDED CARRYING CONVENIENT AND EASY. THE ACTION MAKES CYCLING A FRESH ROUND INTO THE CHAMBER SMOOTH AND EFFORTLESS — AN IMPORTANT FEATURE FOR FAST MOVING GAME LIKE WHITETAIL DEER. THE TANG-MOUNTED SAFETY PRESERVES CLASSIC GOOD LOOKS. BUT MOST IMPORTANTLY, THE MODEL 94 IS THE GUN THAT WORKS — AND HAS WORKED FOR OVER A CENTURY. VIEW THE LINE-UP OF MODEL 94S ON THESE PAGES AND YOU’LL AGREE. WHY ALTER PERFECTION? (SEE CHARTS ON PAGE 51.)

TRAILS END™ HUNTERS.
NOW CHAMBERED IN THREE
FAMOUS HUNTING CALIBERS.
(SHOWN ACTUAL SIZE.)

NEW

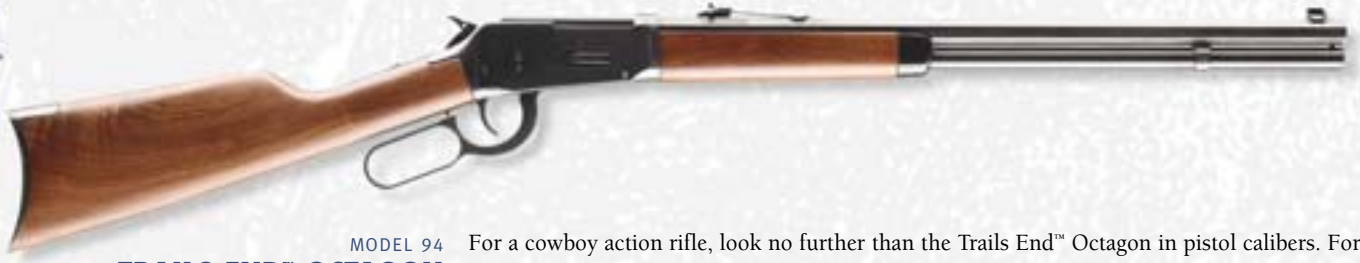

MODEL 94
TRAILS END™ HUNTER OCTAGON
Classic, traditional look — built for hunting.

NEW

MODEL 94
TRAILS END™ HUNTER ROUND
A hunting rifle for serious hunters.

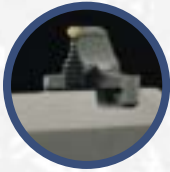

For 2005, the Trails End™ Series offers two new models: the Hunter Octagon and the Hunter Round. The Octagon features an octagon barrel, Marble's® front sight with gold bead and case-colored receiver, lever, forearm cap and crescent buttplate. The Round features a blued finish on the round barrel and receiver, a straight butt plate and an extended forearm that provides an additional hand position. Both feature a 20" barrel length and are chambered in three whitetail calibers: 25-35 Win., 30-30 Win. and 38-55 Win. Other features include satin-finished walnut stocks, top-tang safeties, drilled and tapped receivers and hammer spur extensions for use with a scope. See chart on page 51.

MODEL 94
TRAILS END™ OCTAGON

A classic returns from the Old West.

For a cowboy action rifle, look no further than the Trails End™ Octagon in pistol calibers. For starters, the nostalgic short rifle configuration features a crescent buttplate and an accurate, 20" octagon barrel to create the look and performance you want in a Model 94. You'll appreciate the fast handling and natural feel that continues to make the Model 94 so popular. The top-tang safety streamlines the receiver and brings back the classic look collectors seek. The walnut stock and forearm provide excellent balance between your hands and speed to your target. The full-length magazine holds 11 rounds of 357 Mag., 44 Rem. Mag. or 45 Colt. See chart on page 51.

NEW

A MARBLE'S® FRONT SIGHT IS FEATURED ON MOST MODEL 94 RIFLES.

MODEL 94
TRAILS END™

Ready for the fastest cowboy action.

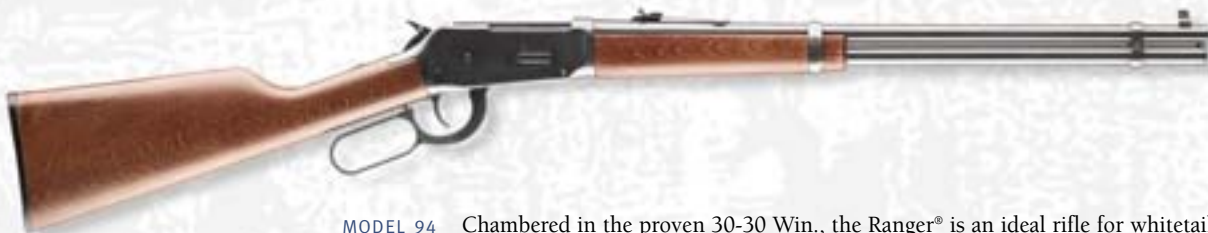

The same carbine-style rifle that the cowboys of the Old West packed along cattle trails is found in today's Trails End™. This exciting rifle provides the cowboy action enthusiast with many of the same features appreciated over 100 years ago, including a genuine saddle ring on the left side of the receiver. The full-length magazine holds 11 rounds of your favorite pistol ammunition: 357 Mag., 44 Rem. Mag. or 45 Colt. A satin-finished walnut stock and extended forearm provide excellent balance and fast pointability. Authentic Marble's® front sight with gold bead. The top-tang safety preserves the classic look. See chart on page 51.

MODEL 94
TRAPPER

Living history has never been more fun.

The Trapper's compact, fast-handling properties are as ideally suited for today's cowboy action shooting as they were in the hands of a frontier lawman. Just like a century ago, you'll appreciate the fast-handling 16" barrel and the rifle's overall carbine-style compactness when hunting in heavy cover or carrying your Trapper on a backpack, horse or even an ATV. The top-tang safety brings back the original look of the classic Model 94. Take your pick from 357 Mag., 44 Rem. Mag., 45 Colt or 30-30 Win. A saddle ring and hammer spur extension are included. See chart on page 51.

MODEL 94
RANGER®

Excellent value, hardworking performance.

Chambered in the proven 30-30 Win., the Ranger® is an ideal rifle for whitetail hunters. This is a hard working, day-to-day firearm. It has a post-style front sight, adjustable rear sight, a durable hardwood stock and forearm and top-tang safety. The Ranger is perfectly balanced and shoulders and shoots well. A hammer spur extension is included for using with a scope. See chart on page 51.

MODEL 94. WHAT'S MORE DEPENDABLE THAN HISTORY?

XS GHOST RING SIGHT.

RAIL AND SCOPE BASE.
QUICKLY ATTACH YOUR LONG EYE-RELIEF SCOPE.

NEW

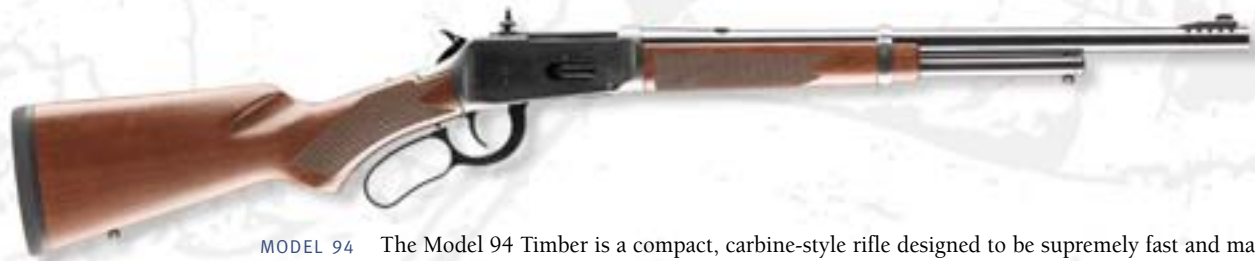

MODEL 94 **TIMBER SCOUT**

Fast handling and nimble: the Scout rifle. (Scope not included.)

Here is a rifle with a concept whose introduction in a Model 94 is long overdue. The new Timber Scout is designed for fast and continuous target acquisition, allowing a wide field of view for fast follow up shots. The rail/base mounted to the nimble 18" barrel is perfectly set up for a long eye relief scope to be mounted with quick-detachable mounts, allowing you to shoot with both eyes open, continually watching game with no obstructions. Remove the scope in inclement weather, or when light conditions fade and utilize the XS brand ghost ring sights that align quickly for open sight shooting. The Timber Scout is the ideal fast action deer rifle. See chart on page 51.

MODEL 94 **TIMBER**

Big performance from the hot 450 Marlin.

The Model 94 Timber is a compact, carbine-style rifle designed to be supremely fast and maneuverable and deliver an enormous punch. Chambered in the 450 Marlin, the Timber features a quick-swinging 18" ported barrel. Fully adjustable XS brand ghost ring sights provide quick target acquisition and excellent accuracy. The receiver is drilled and tapped for scope mounts. The three-quarter magazine holds four rounds. The checkered stock features a semi-pistol grip design. A Pachmayr® Decelerator® recoil pad and the ported barrel help reduce recoil. See chart on page 51.

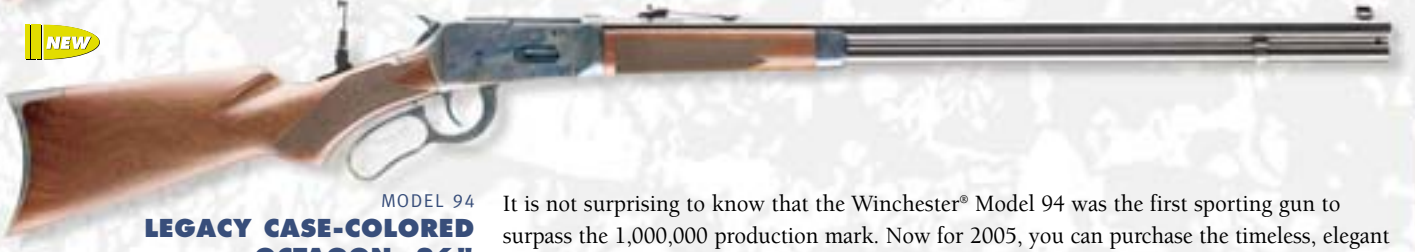

NEW

MODEL 94
LEGACY BLUED OCTAGON, 26"

Classic looks for a classic rifle.

NEW

MODEL 94
LEGACY CASE-COLORED OCTAGON, 26"

The Legacy lives on and speaks for itself.

It is not surprising to know that the Winchester® Model 94 was the first sporting gun to surpass the 1,000,000 production mark. Now for 2005, you can purchase the timeless, elegant Legacy, certainly one of the finest Model 94s to ever be produced, in one of the most classic configurations of the past. This model features an octagon barrel, a finely checkered walnut stock and forearm, an adjustable Marble's® rear tang sight and an option for a case-colored or richly blued steel receiver. Notice the nostalgic curved buttplate, preferred by cowboys and range riders for more than 100 years, whose lives often depended upon this very model. Each rifle has been carefully and ergonomically designed for comfortable balance and accurate shooting, making it ideal for deer or at the range. See chart on page 51.

NEW

MODEL 94
LEGACY ROUND, 26"

A Legacy worthy of its name.

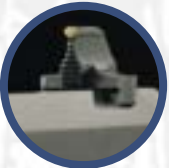

NEW

MODEL 94
LEGACY CASE-COLORED ROUND, 26"

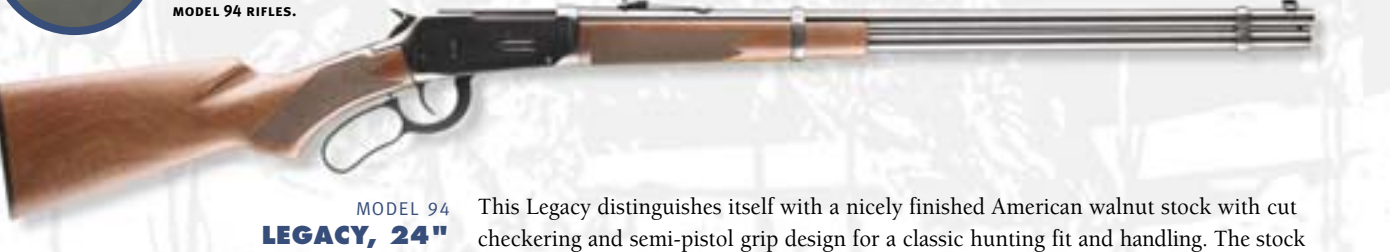

Elegance in walnut and steel.

This new Legacy features exquisite craftsmanship, a historic reputation and performance beyond modern standards. Select either a case-colored or deeply blued receiver with a blued, round 26" barrel. The checkered walnut stock features a semi-pistol grip design for a classic hunting fit and secure handling. An adjustable Marble's® rear tang sight is a functional and aesthetically pleasing addition. When shouldering this rifle, you just may feel yourself stepping back 75 years or so when this model reigned supreme — as it continues to do so today. Above models are available in 30-30 Win. or 38-55 Win. calibers only. See chart on page 51.

NEW

MARBLE'S® FRONT SIGHT
FEATURED ON MOST
MODEL 94 RIFLES.

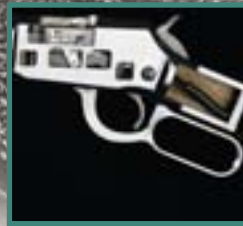

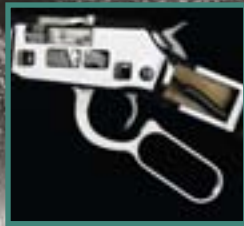

MODEL 94
LEGACY, 24"

Become part of the Legacy.

This Legacy distinguishes itself with a nicely finished American walnut stock with cut checkering and semi-pistol grip design for a classic hunting fit and handling. The stock is ergonomically correct and provides a superb fit when using a scope. A longer forearm configuration allows an additional forward hand position to balance the 24" barrel. A full-length magazine and top-tang safety improves the Legacy's already great looks. Select calibers in 30-30 Win., 357 Mag., 44 Rem. Mag. or 45 Colt. Hammer spur extension included. Drilled and tapped for scope mounts. See chart on page 51.

MODEL 94

START YOUR OWN LEGACY. INVEST IN A FUTURE OF RIMFIRE MEMORIES.

CUT AWAY VIEWS OF THE MODEL 9422.

NEW

RIGHT SIDE OF RECEIVER.

**MODEL 9422
HIGH GRADE
TRADITIONAL TRIBUTE**

Beauty and grace unmatched by any other rimfire.

If you are looking for a fine shooting, collectible Model 9422, the High Grade Traditional Tribute is your rifle. Deluxe, fine checkering wraps around the beautiful high grade walnut stock and forearm, while the hand-carved, high-relief silver inlay engraving of the 9422 tribute and Winchester® Horse and Rider (shown above) enhance the deeply blued receiver. For looks it will be hard to top the High Grade Traditional. In addition to its beauty, the High Grade Traditional still features its renowned reliability, handling and extreme accuracy. Available in either a 22 Long Rifle or 22 WMR. See chart on page 51.

NEW

LEFT SIDE OF RECEIVER.

**MODEL 9422
HIGH GRADE
LEGACY TRIBUTE**

A Legacy never to be forgotten.

The Model 9422 High Grade Legacy Tribute has a nostalgic appeal. It has a high grade, cut-checked, semi-pistol grip walnut stock and forearm with extended nose for additional hand position. The richly blued receiver is delicately engraved with gold-enhanced scenes (shown above), making this rifle unique and one you'll be proud to own. A 22½" barrel balances just right. The rear sights are adjustable and the front sight hood is removable. A hammer extension is included for use with a scope. 22 Long Rifle or 22 WMR. See chart on page 51.

SINCE 1972, WINCHESTER® HAS BUILT ONE OF THE MOST FAMOUS AND BEST LOVED RIMFIRES ON THE MARKET: THE MODEL 9422.

MORE THAN JUST A RIMFIRE RIFLE, IT IS A FOUNDATION FOR LEARNING ACCURACY, SAFETY AND BUILDING GOOD MEMORIES. MODEL 9422S ARE APPRECIATED BY FIREARMS AFICIONADOS AND FIRST-TIME BUYERS ALIKE. THE SMOOTH, FLUID ACTION, SPECIAL TARGET CROWNS FOR IMPROVED ACCURACY AND EXCELLENT FIT AND FINISH WERE ALL THE EVIDENCE NECESSARY TO SHOW THAT THEY WERE BUILT TO HIGHER STANDARDS THAN OTHER RIMFIRES. NOW, AFTER 33 YEARS, PRODUCTION OF THE TIME-HONORED MODEL 9422 IS ENDING. THE TOOLING IS BEING RETIRED, AND THE PRODUCTION LINE AT THE NEW HAVEN, CONNECTICUT FACILITY WILL STOP. NEVER AGAIN WILL YOU HAVE THE OPPORTUNITY TO PURCHASE RIFLES LIKE THESE FINAL PRODUCTION 9422S. IN A WELL-DESERVED FINAL APPLAUSE, A SPECIAL, LIMITED EDITION RUN OF ONLY 9,422 WILL BE PRODUCED IN A TRIBUTE SERIES, AND 222 IN THE CUSTOM EDITION. DO NOT DELAY IN SELECTING YOUR RIFLE, YOU WON'T GET A SECOND CHANCE. SEE CHARTS ON PAGE 51.

9422

NEW

MODEL 9422
CUSTOM TRADITIONAL TRIBUTE

A lasting tribute to a classic rifle.

RIGHT SIDE OF RECEIVER.

LEFT SIDE OF RECEIVER.

In saying farewell to the Model 9422, this special Custom Traditional Tribute is adorned with the finest features available. Most notable is the custom engraving on the receiver. The hand-carved, high-relief engraving on a silver plated receiver features a gold-inlaid tribute to the 9422 on one side and the traditional Winchester® Horse and Rider on the other (shown above). A beautifully finished and marbled walnut stock adds to the value. For custom collectors and lever-action rifle fans, the Custom Traditional Tribute is a must have. Only 222 rifles will be available (22 Long Rifle only). See chart on page 51.

NEW

MODEL 9422
SPECIAL EDITION TRADITIONAL TRIBUTE

A special edition for a special gun.

RIGHT SIDE OF RECEIVER.

The Special Edition Traditional Tribute Model 9422 maintains the smooth, reliable action and excellent finish work of Winchester® rimfire rifles which made them the standard for quality in the shooting industry for more than 30 years. The Traditional is quite possibly the ultimate hunting rifle for squirrels and other small game. This model features a checkered straight grip, satin-finished walnut stock and forearm. The deeply blued receiver is engraved with a tribute to the 9422 and the traditional Winchester® Horse and Rider. A removable front sight hood and hammer extension are included. Available in either 22 Long Rifle or 22 WMR. See chart on page 51.

NEW

IMPROVED CYLINDER

SKEET

THERE ARE FEW FIREARMS THAT HOLD THE ALLURE THE MODEL 9410 DOES — THERE'S REALLY NOTHING QUITE LIKE IT. A COMBINATION OF THE TRADITIONAL LOOKS, FIT AND FEEL OF THE CLASSIC MODEL 94 RIFLE, CHAMBERED IN EASY-SHOOTING .410 BORE. FROM EARLY SEASON DOVE FIELDS, TO THE BITING COLD OF LATE WINTER RABBIT HUNTS, TO A SPRING DAY SHOOTING CLAY TARGETS, THE MODEL 9410 IS MEANT TO BE HANDLED, SHOT AND ENJOYED ALL YEAR LONG. FEATURING THE TRIED AND TRUE MODEL 94 LEVER ACTION, THE 9410 POSITIVELY LOADS AND EJECTS EACH ROUND QUICKLY AND SMOOTHLY, PROVIDING INSTANT FOLLOW-UP SHOTS. THE 9410 IS AVAILABLE IN A VARIETY OF MODELS, INCLUDING THE SEMI-PISTOL GRIP STOCK OF THE PACKER SERIES OR THE QUICK-HANDLING STRAIGHT STOCK OF THE TRADITIONAL AND RANGER® SERIES. TWO CHOKE SYSTEMS ARE ALSO AVAILABLE: STANDARD BORE AND THE INTERCHANGEABLE INVECTOR™ SYSTEM, WHICH ADDS VARIETY TO YOUR SHOT PATTERNS. NO MATTER WHICH MODEL YOU CHOOSE, YOU'LL FIND THE MODEL 9410 SHOTGUN IS SIMPLY THE MOST FUN, VERSATILE FIREARM YOU'LL EVER SHOOT.

**MODEL 9410
TRADITIONAL**

Lever-action shotgunning

The Model 9410 Traditional shotgun's straight grip stock and tang safety bring back the long overdue looks and feel of the original Model 1894's. The Traditional is designed with the kind of handling and pointability necessary when hunting fast-moving game. The 24" barrel, with interchangeable Invector™ chokes, readily handles all current factory 2½" .410 bore shotgun loads, including Foster-type rifled slugs (for larger varmints). A modified shallow "V" adjustable rear sight is paired with a fiber optic TRUGLO® front sight for fast target acquisition. See chart on page 51.

**MODEL 9410
PACKER COMPACT**

How can a .410 bore get any better?

Combine reduced stock dimensions (12½" length of pull) with light weight and low recoil, and the Model 9410 Packer Compact becomes the perfect first gun, especially for younger or smaller shooters. All the features found on the full-size models are here: TRUGLO® fiber optic front sight with modified shallow "V" adjustable rear sight, walnut stock and forearm, and a distinctive end-cap. In addition, you'll appreciate the Invector™ choke system which provides any shot pattern you want to shoot. The top-tang safety is conveniently placed and perfect for small hands to operate. See chart on page 51.

**MODEL 9410
PACKER**

Perfect for first-time shooters and old-time woodsmen.

The Model 9410 Packer is the perfect do-it-all gun. Lightweight and immensely fun to shoot, the Packer features a three-quarter magazine and 20" barrel equipped with either a cylinder bore choke or the versatile Invector™ choke system. The cylinder bore model fires dense mid-range patterns or Foster-type rifled slugs for hunting larger varmints. The solid walnut stock and forearm with distinctive end-cap adds to its beauty. The metal TRUGLO® front sight combines with a modified shallow "V" adjustable rear sight for rapid target acquisition. Sling posts included. See chart on page 51.

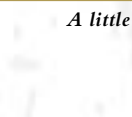

**MODEL 9410
RANGER®**

A little more affordable with all the performance.

The Model 9410 Ranger® is the award-winning Model 9410 Traditional in a value priced, feature-packed Ranger version. The reliable action and 24" smoothbore barrel readily fires all factory 2½" .410 bore shotgun loads, including Foster-type rifled slugs. The full-length tubular magazine allows for a nine-shot capacity. The cylinder bore choke produces excellent mid-range patterns. A straight grip stock makes it fast to the shoulder, and the metal TRUGLO® front sight and modified shallow "V" adjustable rear sight make it easy to pick up targets. The top-tang safety maintains a classic appearance. See chart on page 51.

SELECT ENERGY™

FEW SPORTING SHOTGUNS HAVE RECEIVED THE CRITICAL ACCLAIM THE WINCHESTER® SELECT ENERGY™ HAS GARNERED.

SELECT™ ENERGY™ TRAP ADJUSTABLE COMB

Hot looks with performance to match.

If a gun accessory or feature will help boost the score of a competitive shooter, they're on to it. Luckily, the Select Energy™ Trap provides those in-demand features out of the box. Along with the wide 13mm runway rib, mid bead sight and TRUGLO® TRU-BEAD™ interchangeable fiber optic front sight, the comb is adjustable to customize the fit of the gun. You can quickly raise the comb and dial-in cast on/off in seconds. All Select Energy models have new highly polished, ported barrels, vented side ribs, adjustable trigger shoes and a slight right-hand palm swell. Trap models are available with 30" or 32" barrels. See chart on page 51.

NEW

SELECT™ ENERGY™ SPORTING

Sporting clays was never so enjoyable.

TRUGLO

For excitement and innovation, look at the Select Energy™ Sporting. This shotgun instills confidence with extraordinary balance and fit. New highly-polished, ported barrels with vented side ribs offer reduced recoil, more control, quick handling and a fast swing. The buttstock provides instant rib/sight alignment. You'll appreciate the looks and feel of the distinctive oval checkering on the walnut stock and forearm. A TRUGLO® TRU-BEAD™ competition front sight with five colored fiber optics and a mid bead on the 10mm rib pick up clays instantly. Each model has a comfortable right-hand palm swell. Select 28", 30" or 32" barrels. The Invector-Plus™ choke system is standard. See chart on page 51.

SELECT™ ENERGY™ SPORTING ADJUSTABLE COMB

Adjustable comb for custom-fit performance.

TRUGLO

Nothing makes shooting more accurate and enjoyable than the ability to customize the fit of a shotgun to your personal dimensions. The Select Energy™ Sporting, with its quickly adjustable comb, meets this claim and gives you all of the top features you need for shooting excellence. In addition to the comb being easily raised or lowered, it can also be moved left or right for cast on/off. The Select Energy Sporting has all of the features found in the Energy series, including 2¾" chambers and the popular Invector-Plus™ choke tube system for optimum shot pattern performance. Oval checkering, lightweight, polished barrels with porting to reduce recoil, adjustable trigger for length of pull and your choice of 28"-32" barrel lengths with a 10mm rib round out this feature-packed shotgun. See chart on page 51.

NEW

SELECT™ ENERGY™ TRAP

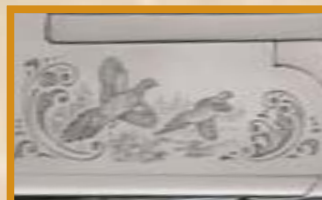

Trap shooting has never been easier.

TRUGLO

Your quest for perfection on the trap range takes its next step with the high performance Select™ Energy™ Trap. Ported barrels tame recoil and vented side ribs improve balance, making this shotgun easy and fast to swing. A TRUGLO® TRU-BEAD™ front sight with five colored fiber optics pair with the mid bead in acquiring clays immediately, and the Monte Carlo stock comes to your shoulder effortlessly, aligning your eye along the wide, 13mm runway rib. Bring this fine shotgun to your shoulder and the slight, right-hand palm swell will clinch the deal. The Select Energy Trap features the Invector-Plus™ choke system and back-bored 30" or 32" polished blued barrels. See chart on page 51.

SELECT

OUTSTANDING IN ANY FIELD.

THE SELECT™ FIELD HAS GAME BIRDS DEPICTED IN FLIGHT ON BOTH SIDES OF THE RECEIVER.

SELECT™ EXTREME ELEGANCE

Aptly named, inside and out.

The appearance of the Select™ Extreme Elegance will capture the heart of every bird hunter. Extensive engraving of wild bird scenes and fleur-de-lis patterns, lightly inked, show the true elegance of this shotgun and give credence to its name. Low-profile receiver and lightweight barrel contours put you on target quickly. Plus, the unique oval checkering pattern enhances grip beyond traditional styles and adds a distinct appearance you'll appreciate for years to come. Strong, crisp ejectors elevate unfired shells and eject empty hulls with purpose. The dual, tapered locking lugs, aided by a third, fixed lug mean strength on the inside and unbridled confidence on the outside. Choose 26" or 28" barrels. See chart on page 51.

Select™

WINCHESTER SHOTGUNS

YOU'LL FIND NO BETTER FUNCTIONING OR BETTER LOOKING 3" FIELD GUNS ANYWHERE THAN THE SELECT™ EXTREME ELEGANCE, SELECT TRADITIONAL ELEGANCE AND SELECT FIELD. AS EXQUISITE AS THEY ARE, BEAUTY IS NOT MERELY SKIN DEEP. EXAMINE THE INSIDE FOR STRENGTH AND INTEGRITY. LOW-PROFILE RECEIVERS, DUAL LOCKING LUGS AND CRISP EJECTORS ARE ONLY THE START OF A LONG LIST OF PERFORMANCE FEATURES. IN ADDITION, EVERY SELECT IS MADE IN BELGIUM BY SKILLED EUROPEAN CRAFTSMEN. FINER LOOKING SHOTGUNS AT SUCH AFFORDABLE PRICING WILL BE HARD TO FIND. SEE CHART ON PAGE 51.

**SELECT™
FIELD**

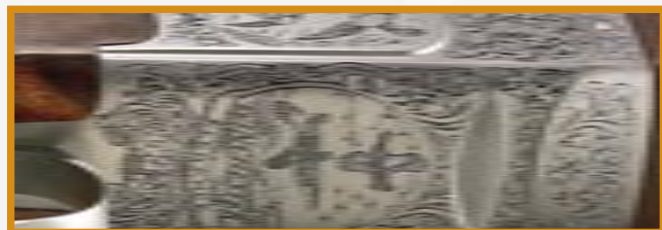

Quick to balance and a pleasure to shoot.

Select™
WINCHESTER SHOTGUNS

With the Select™ Field you can have all the romance and handling you would expect from a more expensive over and under, without the actual expense. The Field is built with the same internal integrity as all the Select shotguns and features an engraved receiver and unique oval-style checkering. The low profile barrels swing fast and fit precisely and solidly with the rugged low-profile receiver. The Invector-Plus™ choke system keeps the shot pattern you need right in your pocket. With the Select Field, the spirit of the over and under field gun is very much alive, and has never been so affordable. Your choice of 26" or 28" barrels. See chart on page 51.

THE SELECT™ TRADITIONAL ELEGANCE LIVES UP TO ITS NAME, FEATURING EUROPEAN STYLED ENGRAVINGS ON THE BOTTOM AND BOTH SIDES OF THE RECEIVER.

**SELECT™
TRADITIONAL ELEGANCE**

Artistry in wood and steel.

Select™
WINCHESTER SHOTGUNS

The artistically engraved trigger guard and receiver with game birds adorning the sides and bottom are just part of the beauty found in the Select™ Traditional Elegance. Each line is lightly inked, enhancing the scene and fleur-de-lis borders. Opening the receiver reveals positive ejectors and strong locking, dual tapered lugs, with a third lug that guards against stress from recoil. Stock checkering is in the traditional style and a high-performance recoil pad is fitted. You'll immediately notice the Traditional Elegance comes quickly to the shoulder, pointing naturally due to the low receiver profile and lightweight barrel contour. Here is an over and under gun that you'll be proud to own and anxious to shoot, season after season. 26" or 28" barrels available. See chart on page 51.

EVERY SELECT ENERGY™ AND ELEGANCE SHOTGUN (EXCEPT FIELD) COMES WITH A DURABLE HARD CASE IMPRINTED WITH THE WINCHESTER® HORSE AND RIDER.

SUPER X2™

**SX APPEAL.
IN A HEARTBEAT.**

SUPER X2

THE SUPER X2™: UNDENIABLY ONE OF THE MOST RELIABLE AND QUICKEST SHOOTING AUTOLOADERS ON THE MARKET. IF YOU'VE BEEN THINKING ABOUT AN AUTOLOADING SHOTGUN, THE SX2 IS THE ONE, HAVING GAINED AN INCREDIBLE REPUTATION AS "THE GUN THAT WORKS™." WHY? BECAUSE THE SX2 FEATURES THE MOST RELIABLE SELF-ADJUSTING GAS-OPERATED ACTION, CYCLING NEW ROUNDS INTO THE CHAMBER EVERY TIME. NOT ONLY THAT, BUT THE SX2 IS EASY TO CLEAN AFTER A DAY OF SHOOTING AND CAN BE FIELD STRIPPED WITHOUT TOOLS. THE INVECTOR-PLUS™ CHOKE SYSTEM, ALONG WITH A BACK-BORED BARREL, CREATES CONSISTENT SHOT PATTERNS AND RELIABLY FIRES A WIDE RANGE OF DIFFERENT LOADS. AND THE COMPACT, LIGHTWEIGHT ALLOY RECEIVER AND WIDE RIB COULD VERY WELL MAKE YOU A BETTER SHOT. NO QUESTION ABOUT IT, THE SX2 IS BUILT BETTER, SWINGS AND SHOOTS FASTER, IS BETTER BALANCED AND MORE RELIABLE THAN OTHER AUTOLOADERS. IT IS A SHOTGUN THAT WILL MAKE YOUR DAY MORE SUCCESSFUL, TIME AFTER TIME. THE SUPER-DEPENDABLE SX2 — THE AUTOLOADER WITH THE FINEST REPUTATION IN THE INDUSTRY.

VERSATILITY WITH THE LOADS YOU LIKE TO SHOOT.

3½" SUPER X2™ SHOTGUNS HANDLE THE FULL RANGE OF FACTORY FIELD LOADS FROM 2¼" (1½ oz.) FIELD LOADS TO MASSIVE 3½" GOOSE-DOWNING MAGNUM LOADS. YOU'LL ALSO APPRECIATE THE ADDED BENEFIT OF RECOIL REDUCTION ONLY FOUND IN GAS-OPERATED AUTOLOADING SHOTGUNS. (SHELLS NOT SHOWN ACTUAL SIZE.)

NEW

SUPER X2™ 3½" CAMO WATERFOWL

Blend in with the cover, stand out from the crowd.

DURA-TOUCH®

The ultimate in all-weather shotguns is found in the Super X2™ 3½" Camo Waterfowl. When geese and other waterfowl are setting in, this is the shotgun you need. It's made specifically for serious waterfowlers with the new Mossy Oak® New Shadow Grass® camo on a weather-resistant composite stock and forearm with grip enhancing Dura-Touch® Armor Coating finish. The back-bored barrel has an improved, ventilated rib design and features the Invector-Plus™ choke system. Plus it reliably shoots factory field loads from 2¼" (1½ oz.) to 3½" magnums. Sling swivel studs are included. See chart on page 51.

SUPER X2™ 3½" UNIVERSAL HUNTER FIELD

Ready and reliable for any action.

DURA-TOUCH®

Versatile, fast, reliable . . . certainly the one gun made to do it all, under the most severe conditions. This sums up the all-purpose Universal Hunter Field. Clad in Mossy Oak® New Break-Up® camo, it's built to hunt waterfowl, upland game and even shoot clay targets — all thanks to the versatile, award-winning, gas-operated Super X2™ action. The rugged composite stock and forearm are coated with Dura-Touch® for unequalled grip, feel and protection. The fast swinging 26" barrel features the Invector-Plus™ choke tube system with three choke tubes included. Sling swivel studs are included. See chart on page 51.

SUPER X2™

**GET A GOOD GRIP
ON AN ARMOR-COATED SX2.**

DURA-TOUCH®

SUPER X2

THE WINCHESTER® SUPER X2™ HAS THE VERY LATEST, MOST INNOVATIVE FEATURES IN SHOTGUN DESIGN AND TECHNOLOGY. THE INCREDIBLE DURA-TOUCH® ARMOR COATING FINISH FOUND ON MOST SUPER X2S IS A CLEAR, PROTECTIVE FINISH THAT PROVIDES A SOFT, ALMOST CUSHIONED FEEL TO THE STOCK AND FOREARM. AT THE SAME TIME, IT IMPARTS A TACKY, YET NOT STICKY, SURE-FEELING GRIP — EVEN WHEN WET. YOU SIMPLY MUST FEEL DURA-TOUCH TO BELIEVE IT. YOU'LL NEVER SUFFER A COLD PLASTIC FEEL ON YOUR HANDS OR CHEEK AGAIN. DURA-TOUCH GREATLY ENHANCES PROTECTION FOR STOCKS AND FOREARMS WHILE GIVING YOU A CONFIDENT, CONTROLLED FEEL WHEN CARRYING, SHOULDERING AND SWINGING ON TARGETS. PICK UP AN SX2 WITH DURA-TOUCH AND FEEL THE DIFFERENCE IT MAKES. YOU'LL WONDER HOW YOU EVER HUNTED WITHOUT IT.

YOU'LL ENJOY THE RUGGED, ALL-WEATHER SUPER X2™ WHEN THE GOING GETS WET. AN ALLOY RECEIVER AND COMPOSITE STOCK WITH DURA-TOUCH® MAKE THE SX2 EXTREMELY DURABLE.

DURA-TOUCH®

SUPER X2™
3 1/2" MAGNUM GREENHEAD

Mallards are fast; the Greenhead is built for speed.

DURA-TOUCH®

What happens when you take the reliable Super X2™ 3 1/2" action and add a 28" Invictor-Plus™ ventilated rib barrel housed in a composite stock and forearm treated with Dura-Touch® in the symbolic "Greenhead" finish? You have the ideal shotgun for hunting mallards. With that list of features, plus a white front bead sight and lightweight alloy receiver, you know this shotgun will take whatever you — or nature — dare throw its way. Three choke tubes and sling swivel studs are included. See chart on page 51.

SUPER X2™
3 1/2" MAGNUM COMPOSITE

The workhorse of the SX2™ line.

DURA-TOUCH®

With a sleek, low-luster black finish under a tough Dura-Touch® coating on a composite stock and forearm, the Super X2™ 3 1/2" Magnum Composite is the original workhorse that started the SX2 revolution. Built to perform in the worst conditions, the reliable Super X2 3 1/2" action is built to shoot factory field loads from 2 3/4" (1 1/8 oz.) to heavy 3 1/2" magnums, thanks to efficient, reliable gas operation. This model also has a back-bored, Invictor-Plus™ ventilated rib barrel with a white bead front sight. Sling swivel studs are included. See chart on page 51.

SUPER X2™
3 1/2" UNIVERSAL HUNTER TURKEY

Magnum power means the rest is up to you.

DURA-TOUCH®
TRUGLO

The Super X2™ Universal Hunter Turkey, with its 26" barrel and Extra Full Extended Invector-Plus™ Turkey tube provides greater confidence when hunting hearty birds. The three included field choke tubes and removable TRUGLO® sights also make this the ideal shotgun for upland or waterfowl hunting. Extra features include the protective Dura-Touch® Armor Coating on the weather-resistant composite stock. Sling swivel studs are included. The receiver is drilled and tapped for mounting a scope or red dot-type sight. See chart on page 51.

3 1/2" NWTF TURKEY

This gobbler season help support the birds.

DURA-TOUCH®
TRUGLO

NEW
MOSSY OAK®
OBSESSION™

NWTF
GRIP CAP.

If you're a serious turkey hunter, you'll appreciate this Super X2™, endorsed by the NWTF. The 3 1/2" NWTF Turkey features either Mossy Oak® New Break-Up® or the new Mossy Oak® Obsession™ with Dura-Touch® on the composite stock and forearm. A 24" barrel with Extra-Full Extended Invector-Plus™ Turkey tube is standard. The reliable gas operation reduces recoil and fires factory field loads from 2 3/4" (1 1/8 oz.) to 3 1/2" magnums. The removable, metal, three-dot TRUGLO® sights and sling swivel studs are standard. The receiver is drilled and tapped for a scope or red dot-type sight (scope base sold separately). A brass NWTF medallion on the pistol grip cap completes the package. A portion of all sales of this shotgun helps support the NWTF. See chart on page 51.

SUPER X2

"THE GUNS THAT WORK™." CLEARLY, THE SUPER X2™ IS WORTHY OF THAT TITLE. NO OTHER SHOTGUN OFFERS THE RUGGED ABILITIES, ON-DEMAND RELIABILITY, EXCEPTIONAL BALANCE AND INSTANT POINTABILITY OF THE SX2. AND NOW WITH THE NEW 3" LIGHT FIELD MODEL AND THE AVAILABILITY OF NEW MOSSY OAK® OBSESSION™ CAMO ON BOTH TURKEY GUNS, THERE IS AN SX2 TO FIT EVERY HUNTING NEED. SX2 SHOTGUNS POSSESS THE HARDWORKING FEATURES THAT MAKE IT THE "GO TO" GUN IN THE FIELD. THE VERY FAST, GAS-OPERATED ACTION EJECTS EMPTY HULLS FROM A VARIETY OF LOADS AND CYCLES NEW ROUNDS FROM THE MAGAZINE INTO THE CHAMBER FOR QUICK FOLLOW-UP SHOTS. THE GAS PISTON IS SELF-ADJUSTING FOR EXCELLENT RELIABILITY AND LOAD VERSATILITY. A SHORT, ALLOY RECEIVER REDUCES THE OVERALL WEIGHT AND LENGTH TO CREATE AN EASIER SWINGING SHOTGUN. WITH SUPERB QUALITY INSIDE AND OUT, TRUST THE HARD-HUNTING SUPER X2 TO BE THE BEST CHOICE IN AN AUTOLOADER.

NEW

SUPER X2™ 3" LIGHT FIELD

Lightweight design, heavyweight features.

Lightweight perfection — about 6½ lbs. of it actually (depending on barrel length). That's the best way to explain the new Super X2™ Light Field shotgun. The new Light Field possesses every characteristic a hard-core bird hunter desires in a shotgun: a quick cycling, reliable gas-operated action, back-bored barrel, interchangeable Invector-Plus™ choke tubes, alloy receiver and magazine tube plus instant pointability — all built on a new lightweight design. A new contemporary and lightweight rib configuration and checkered walnut stock add both aesthetics and functionality. See chart on page 52.

SUPER X2™ 3" COMPOSITE

Let the elements come. Concentrate on the game.

DURA-TOUCH®

Never let bad weather ruin your hunt with the Super X2™ 3" Composite. From the reliable gas operating system, to the rugged composite stock and forearm with Dura-Touch® Armor Coating, to the low luster finish on exposed metal surfaces, the 3" Super X2 Composite is a tough, reliable shotgun. The simple gas-operated action allows you to shoot the heaviest factory 3" magnums, 2¾" (1 oz.) field loads and everything in between with reduced recoil and allows for unbelievably fast follow-up shots. Sling swivel studs are included. See chart on page 52.

NEW

**SUPER X2™
3" SPORTING CLAYS SIGNATURE II**

Hot new looks with performance to match.

Don't let the striking good looks of the new Signature II overshadow its flawless function and perfect balance. Built around the reliable, lightning fast Super X2™ 3" action, this model features a specially designed, spacer-adjustable stock for a custom fit. The beautiful finish of the red anodized alloy receiver and back-bored Invector-Plus™ barrel complement the black metallic fleck paint on the special stock and forearm. Two gas pistons are provided to cover the extremes of factory ammunition loads. Five Invector-Plus choke tubes are included. See chart on page 51.

**SUPER X2™
3" SIGNATURE RED SPORTING**

Bred for competition.

DURA-TOUCH®

The Super X2™ Signature Red Sporting is designed specifically for the serious sporting clays contender. The foundation is its fast and reliable gas-operated action, giving the confidence you need to concentrate on targets during competitive shooting. Dura-Touch® Armor Coating improves your grip, meaning a more controlled, fluid swing and protects the red finish that's all Winchester. The specially designed hardwood stock is spacer-adjustable for a personalized fit. Five Invector-Plus™ choke tubes are included, plus two gas pistons to cover the extremes of sporting ammunition loads. Select 28" or 30" barrel models. See chart on page 52.

**SUPER X2™
3" SPORTING CLAYS**

High performance and ready for sport.

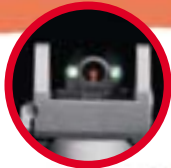

Whether for serious competition or serious enjoyment, the Super X2™ Sporting Clays is the right gun for this fast-growing sport. Built around the reliable, lightning fast Super X2 3" action, this model features a specially designed, spacer-adjustable stock for a custom fit. The low-luster finish of the receiver and Invector-Plus™ barrel reduce glare and fit perfectly with the satin finish of the walnut stock and forearm. Two interchangeable gas pistons are provided to cover the wide range of factory ammunition loads. Five Invector-Plus choke tubes are included. See chart on page 52.

SUPER X2

WINCHESTER® TARGET SERIES AUTOLOADERS CAN MEAN THE DIFFERENCE BETWEEN A WIN OR A LOSS. AND TO WIN, IT IS CRITICAL THAT YOU HAVE AN ACTION YOU CAN DEPEND ON. THE SUPER X2™ ACTION IS VERY FAST CYCLING — FIVE SHOTS IN JUST OVER 1/2 SECOND. TO FUNCTION THIS FAST, CRITICAL INTERNAL PARTS ARE PRECISELY FIT TO FUNCTION TIME AFTER TIME, CYCLE AFTER CYCLE. THE GAS SYSTEM IS SIMPLE AND RELIABLE IN ALL WEATHER CONDITIONS. PLUS, IT HELPS REDUCE RECOIL SO YOU'RE NOT BEAT UP AT THE END OF THE DAY. THE DURA-TOUCH® ARMOR COATING ON THE STOCK AND FOREARM OF THE SPORTING CLAYS SIGNATURE RED AND PRACTICAL MK II IMPROVES YOUR GRIP, ENSURING THESE ARE GUNS THAT COMPETITORS WILL NOT SOON FORGET. TRUGLO® SIGHTS ON THE PRACTICAL MODELS PICK UP TARGETS QUICKLY. SHOTGUNS THAT FIT AND FUNCTION WELL AND ARE FUN TO SHOOT MEAN BETTER SCORES. DON'T SETTLE FOR AN INFERIOR SHOTGUN. WINCHESTER SUPER X2 TARGET GUNS ARE BUILT TO WIN.

FRONT LPA SIGHT WITH TRUGLO® FIBER OPTIC.

SUPER X2™ 3" PRACTICAL MK II

Features that put you ahead and keep you there.

DURA-TOUCH®
TRUGLO

If you love mixing it up in hot competition, then the SX2 Practical MK II (Mark II) is your shotgun. This nimble handling shotgun is built around the Super X2™ 2¾" action for unequaled speed and reliability, plus reduced recoil to put you back on target fast. Dura-Touch® Armor Coating improves the feel and grip of the composite stock and forearm. The easily removable LPA ghost-ring type rear sight mounts to a newly designed Picatinny rail cantilever. TRUGLO® fiber optics are found in both the LPA rear and front sights (shown above). The MK II features a 22" barrel, eight-round extended magazine and the Standard Invector™ choke system for performance with slugs or shot. Two pistons are included for better performance with all loads, including slugs. See chart on page 52.

VIEW DOWN THE SIGHT GROOVE OF THE MK I.

SUPER X2™ 3" PRACTICAL MK I

Dependability in the heat of the match.

TRUGLO

Ready for USPSA Limited Division competition right from the box, the Super X2™ Practical MK I (Mark I) has the features and performance to lower your times and raise your scores. The 2¾" action is proven fast — five shots in .51 of a second — while taming recoil to help get those shots on target. In addition, the MK I features a 22" barrel and an eight-round extended magazine with a composite stock and forearm. It also features the Standard Invector™ choke system for accurate performance with rifled slugs when needed. See chart on page 52.

SUPER X2

SUPER X2™ PRACTICAL SHOTGUNNERS

SERIOUS 3-GUN COMPETITORS, LIKE JIM WALL OF IDAHO, EXPECT THEIR SHOTGUNS TO COMPETE AS HARD AS THEY DO. IT GOES WITHOUT SAYING THAT SPEED AND RELIABILITY ARE CRUCIAL ELEMENTS WHEN COMPETITION GETS MEAN. JIM, WITH A GRAND MASTER RATING IN USPSA/IPSC SAYS, "THIS GUN IS READY TO GO RIGHT OUT OF THE BOX. THE PRACTICAL IS RELIABLE, HANDLES VERY WELL AND RECOIL IS LESS THAN MOST SHOTGUNS. IT SHOOTS SLUGS OUTSTANDINGLY. OTHER SHOOTERS I KNOW WHO USE THE WINCHESTER® PRACTICAL FEEL THE SAME WAY."

MODEL 1300

**PHASTER THAN PHEASANTS.
SPEED PUMP™ MEANS FAST ACTION.**

THE WINCHESTER® MODEL 1300 SPEED PUMP™: NO OTHER PUMP SHOTGUN OFFERS THE SAME SPEED AND AGILITY. THANKS TO THE INNOVATIVE INERTIA-ASSISTED PUMPING OF ITS PROVEN ROTARY BOLT ACTION, THE MODEL 1300 IS CAPABLE OF SHOOTING THREE SHOTS IN JUST OVER A HALF SECOND. NOW THAT'S FAST. BUT WHY STOP AT SPEED WHEN YOU CAN ALSO HAVE GREAT LOOKS, INNOVATION AND THE EASY HANDLING OF A WINCHESTER SHOTGUN? THE WINCHESTER SPEED PUMP LINE HAS ALL OF THESE FEATURES IN CONFIGURATIONS TAILORED TO YOUR NEEDS. FROM THE MOSSY OAK® CAMO GUNS FOR WATERFOWL, DEER AND TURKEYS, TO THE FINELY FINISHED WALNUT FIELD GUNS, THERE IS A MODEL 1300 TO FIT EVERY NEED AND EVERY FAMILY MEMBER. MODEL 1300'S ARE EASY TO CARRY AND FAST SWINGING, ALL MADE POSSIBLE BY THE LIGHTWEIGHT ALLOY RECEIVER. THAT SAME LIGHTWEIGHT RECEIVER ALSO HELPS TO KEEP THE WEIGHT OF THE GUN BETWEEN YOUR HANDS, CREATING A PERFECTLY BALANCED SHOTGUN. YOU WILL SIMPLY NOT FIND A FASTER PUMPING, MORE RELIABLE, MORE DEPENDABLE, EASIER HANDLING SLIDE-ACTION SHOTGUN ANYWHERE.

**MODEL 1300
NEW SHADOW GRASS®**

Go play in the mud.

Waterfowlers will appreciate many things about the Model 1300 New Shadow Grass®. Namely, the Mossy Oak® camo finish applied to the weather-resistant composite stock, allowing this shotgun to blend in with the natural surroundings. Like all Speed Pump™ shotguns, you can count on the tough rotary bolt design to work in the nastiest conditions and, thanks to inertia-assisted pumping, you can count on it to work fast. The action and versatile WinChoke® choke system are compatible with all factory 2¾" and 3" magnum loads. Choose a 26" or 28" barrel. See chart on page 52.

**MODEL 1300
SPORTING/FIELD**

The finest Model 1300 ever.

The Model 1300 Sporting/Field is the ultimate Winchester® pump shotgun. The Sporting/Field is loaded with features like a TRUGLO® TRU-BEAD™ front sight (four extra fiber optics in different colors are included) with a mid bead for fast target acquisition, and a great-looking walnut stock and forearm with satin finish and cut checkering. A premium Pachmayr® Decelerator® recoil pad tames recoil effectively, making long days of shooting more comfortable. The 28" barrel features the WinChoke® system and five choke tubes to accommodate any hunting or range situation you'll encounter. See chart on page 52.

**MODEL 1300
SPORTING/FIELD, COMPACT**

Rear position forearm makes the difference.

Confidence on the range and in the field is forged with a shotgun that fits and shoots well. That's why smaller shooters will appreciate the Model 1300 Sporting/Field Compact. The combination of a smaller stock, a rear-positioned forearm, special dimensions and naturally fast handling make the Sporting/Field Compact the ideal gun for the smaller shooter. This Speed Pump™ comes complete with high-performance features like a TRUGLO® TRU-BEAD™ fiber optic front sight, five WinChoke® tubes and a superior Pachmayr® Decelerator® recoil pad to make shooting all day a pleasurable experience for smaller shooters. A 24" barrel allows for a fast swing with manageable weight. See chart on page 52.

1300

MODEL 1300

WITH THE CAPABILITY OF FIRING THREE SHOTS IN A MERE .56 SECONDS, THE MODEL 1300 SPEED PUMP™ IS ONE OF THE FASTEST OPERATING SLIDE-ACTION SHOTGUNS AROUND. GRANTED, YOU MAY NEVER NEED TO SHOOT THIS FAST, BUT YOU CAN REST ASSURED KNOWING YOUR MODEL 1300 HAS FOLLOW-UP SHOT SPEED YOU'LL NOTICE AND APPRECIATE. INERTIA-ASSISTED PUMPING IS THE REASON BEHIND THE UNCANNY SPEED OF THE ACTION AND IS THE PRODUCT OF THE STRONG ROTARY BOLT DESIGN WINCHESTER® SPEED PUMP SHOTGUNS ARE NOTED FOR.

MODEL 1300
WALNUT FIELD
Dressed for any outing.

As the original Winchester® Speed Pump™, the Walnut Field headlines this remarkable line of shotguns. Even though it features an elegant, gloss-finished walnut stock and forearm with cut checkering, don't let the handsome look of the Walnut Field fool you; it's just as hardworking, versatile and dependable as ever. You can count on the 12 gauge Walnut Field to easily handle any hunt — from ducks to pheasants to clay birds — and because it's a Speed Pump, you can bet it will get the job done fast. The ventilated rib barrel utilizes the WinChoke® threaded choke system and comes with Full, Modified and Improved Cylinder choke tubes. Available in 26" and 28" barrel lengths and a 3" chamber. See chart on page 52.

MODEL 1300
UPLAND SPECIAL FIELD
Sleek, quick, straight grip stock.

Highlighted by an English-style, straight grip stock with rich gloss finish, the Upland Special Field is the most maneuverable Speed Pump™ ever. With a 24" vent rib barrel and a slim, shorter forearm, the Upland Special is designed to come to the shoulder quickly and get you on target fast. The straight grip also moves your hand closer to the bore centerline for better balance. Count on the proven fast Speed Pump action with a 3" chamber to work when you need it most. The Upland Special is available in both 12 and 20 gauge models. The excellent patterning WinChoke® system with three choke tubes is standard equipment. See chart on page 52.

MODEL 1300
BLACK SHADOW®
Composite stock, extreme durability.

If you're looking for a tough pump shotgun for this hunting season, there is no more durable, reliable pump shotgun than the Black Shadow®. The non-glare black finish of the barrel and receiver won't give away your position to wary waterfowl and the rugged composite stock and forearm is up to the abuse a day afield can dish out. The fast, hardworking Speed Pump™ action shoots all factory 2¾" and 3" magnum loads. The versatile WinChoke® system is steel, tungsten, bismuth and lead shot compatible. Available in both 12 gauge and 20 gauge models. See chart on page 52.

MODEL 1300
RANGER® COMPACT

Affordable, with compact dimensions.

The Ranger® Compact has everything you need in a shotgun — only in a smaller package. With a length of pull of just 13" and a drop at heel of 2½", speed to the shoulder and rib alignment are ideal for smaller shooters. The inertia-assisted Speed Pump™ rotary bolt makes pumping not only faster, but also much easier. The forearm is positioned rearward (see picture and compare) for a shorter reach, making it easier to work the action. The grip area is smaller for better finger-to-trigger fit. It's complete with the versatile WinChoke® system for excellent shot patterns. Available in 12 and 20 gauge. See chart on page 52.

MODEL 1300
UNIVERSAL HUNTER FIELD

Blends into any type of hunting you do.

For versatility, no shotgun is better qualified than the Universal Hunter Field. Designed to hunt any game in the nastiest conditions you can imagine, the Universal Hunter Field features a durable, weather-resistant finish in Mossy Oak® New Break-Up® camo and a maneuverable 26" ventilated rib barrel with WinChoke® tubes and a composite stock and forearm. Naturally, the smooth, reliable, rotary bolt Speed Pump™ action is standard equipment — making the Universal Field just as fast as game is wary. The lightweight alloy receiver is drilled and tapped to accept a scope or red dot-type sight. From upland fields to flooded timber to turkey woods, the Universal Hunter is ready for any situation. See chart on page 52.

MODEL 1300
SPEED PUMP™ ROTARY BOLT

THE ROTARY BOLT DESIGN FOUND IN THE MODEL 1300 SPEED PUMP™ IS THE REASON BEHIND THE IMPRESSIVE SPEED AND STRENGTH OF THESE PROVEN SHOTGUNS. OVER THE YEARS, THIS UNIQUE SYSTEM HAS CONTINUALLY BEEN IMPROVED UPON. IN ADDITION TO THE INCREASED SPEED, THIS SYSTEM PROVIDES A SOLID, TIGHT LOCK-UP WITH THE BARREL, AN ADDED REASON FOR ITS RELIABILITY.

MODEL 1300

**TAKE A TOM
TO TASK ...
WITH A
MODEL 1300.**

**MOSSY OAK®
NEW BREAK-UP®**

**MODEL 1300
NWTf SHORT TURKEY**

Accurate, Extra Long, Extra Full Extended choke tube. (Pictured below.)

Turkey hunting requires you to be quick — Speed Pump™ quick — which makes the Model 1300 Short Turkey the ideal gun. A highly maneuverable 18" barrel is a benefit when moving through thick brush and the adjustable TRUGLO® fiber optic sights provide excellent low light performance. Or, if you prefer, the receiver is drilled and tapped for mounting a scope or red dot-type sight. The high-density Extra Long, Extra Full Extended Turkey tube is included and yields extremely tight patterns. Mossy Oak® New Break-Up® or new Mossy Oak® Obsession™ camo keeps you hidden from wary eyes. The rugged composite stock is finished with a National Wild Turkey Federation medallion on the grip cap. Sling studs are standard. See chart on page 52.

**TRUGLO® FIBER
OPTIC SIGHTS.**

**MODEL 1300
NWTf BUCK & TOM**

TRUGLO® sights, Extra Long, Extra Full Extended choke tube and rifled sabot choke tube. (Pictured below.)

Built for deer and turkeys, the NWTf Buck and Tom shotgun has you covered from spring to fall. The inertia-assisted Speed Pump™ action gives you impressively fast follow-up shot capabilities and excellent reliability. Full coverage Mossy Oak® New Break-Up® camo keeps you hidden when the action is close. Whether you are using the included, extended rifled choke tube for deer, or the high-density Extra Long, Extra Full Extended Turkey tube on big toms, the smooth bore 22" barrel is impressively accurate. Includes adjustable metal TRUGLO® fiber optic sights or mount a scope or red dot-type sight on the drilled and tapped receiver. Rugged composite stock and forearm. Authorized and endorsed by the National Wild Turkey Federation. See chart on page 52.

**MODEL 1300
UNIVERSAL HUNTER TURKEY**

Perhaps the only shotgun you'll ever need.

Versatility in all seasons is what makes the Universal Hunter Turkey shotgun one of the most valuable guns you'll ever buy. From turkeys to waterfowl to sport shooting, the Universal Hunter Turkey does it all. It features a versatile 26" ventilated rib barrel with high-density Extra Long, Extra Full Extended Turkey tube, Improved Cylinder, Modified and Full WinChoke® tubes included. A drilled and tapped receiver makes it easy to mount a scope or red dot-type sight. Easily removable metal TRUGLO® three dot sights are also included. Mossy Oak® New Break-Up® camo, composite stock and forearm with magazine cap and stock sling studs are included. See chart on page 52.

1300

MODEL 1300

ACCURACY WITH SLUGS REQUIRES A SPECIAL GUN, ONE THAT IS BUILT AND DESIGNED TO HANDLE THE PUNISHMENT HEAVY LOADS DISH OUT. WINCHESTER® SPEED PUMP™ DEER GUNS ARE THE PERFECT CHOICE IN STATES WHERE SHOTGUNS ARE THE BEST, AND POSSIBLY ONLY, OPTION. THE ROTARY BOLT OF THE MODEL 1300 PROVIDES AN EXTREMELY TIGHT LOCK-UP, SECURING THE SHELL IN THE CHAMBER FOR INCREDIBLE STRENGTH AND IMPROVED ACCURACY WHEN FIRING SLUGS.

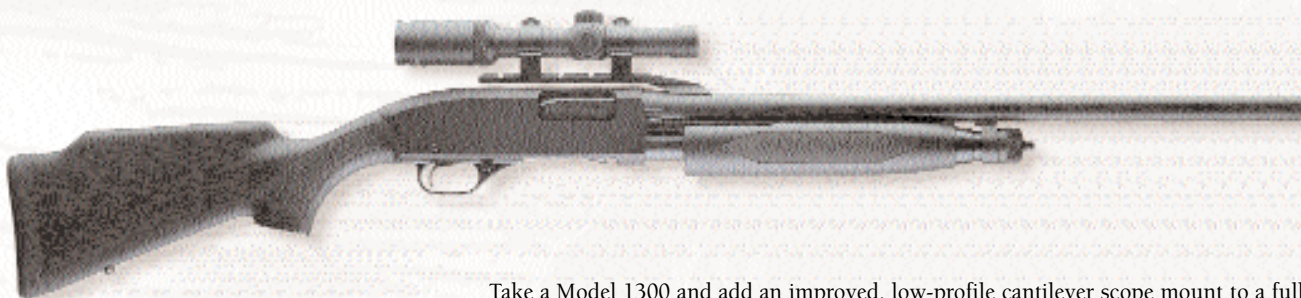

MODEL 1300
BLACK SHADOW® DEER

Reliability is a premium, the price isn't.

You can bet the Black Shadow® Deer is the hardest working pump shotgun around. This specialized deer gun features a rifled barrel for shooting sabot slugs and is available in 12 or 20 gauge. You'll appreciate the non-glare finish of the composite stock, forearm and exposed metal surfaces as much as the alloy receiver, which is drilled and tapped for mounting a scope. Adjustable rifle sights and sling swivel studs are included. A 12 gauge model is also available as a combo that includes both a rifled barrel and a 28" vent rib field barrel. See chart on page 52.

MODEL 1300
BLACK SHADOW® CANTILEVER

*Low profile cantilever scope mount ensures accuracy.
(Scope not included.)*

Take a Model 1300 and add an improved, low-profile cantilever scope mount to a fully rifled 22" barrel and you'll find the most accurate pump slug gun available. The solid cantilever mount keeps the scope firmly connected to the barrel, ensuring the scope stays sighted in while allowing the shotgun to easily be taken down for cleaning. The composite stock is ideal for medium eye-relief scopes that provide exceptional field of view. In 12 gauge only. See chart on page 52.

MODEL 1300
RANGER® DEER

Sleek 12 or 20 gauge models for everyone.

Speed, reliability, balanced handling, strength, superb value — you'll find each of these features, plus a long list of others, in the Ranger® Deer shotgun. Available in 12 or 20 gauge, you can count on the 22" rifled barrel to accurately and reliably fire today's sophisticated sabot slugs. The receiver is drilled and tapped to readily accept a scope or use the adjustable, metal TRUGLO® rifle sights to provide excellent low-light target acquisition. The satin-finished hardwood stock and forearm feature cut checkering. See chart on page 52.

FOR THOSE TIMES WHEN YOUR LIFE DEPENDS UPON THE RELIABILITY AND INTEGRITY OF YOUR SHOTGUN, COUNT ON A WINCHESTER® MODEL 1300 DEFENDER. WHETHER YOU ARE CAMPING IN BEAR COUNTRY, BOATING IN COASTAL WATERS OR IN HOT COMPETITION, A MODEL 1300 DEFENDER SHOTGUN IS LIGHTWEIGHT, EASY TO PACK AND QUICK TO THE SHOULDER. THESE HARDWORKING SPEED PUMP™ SHOTGUNS ARE THE PREFERENCE OF EXPERIENCED GUIDES IN DANGEROUS HABITAT.

NEW

**MODEL 1300
PRACTICAL DEFENDER**

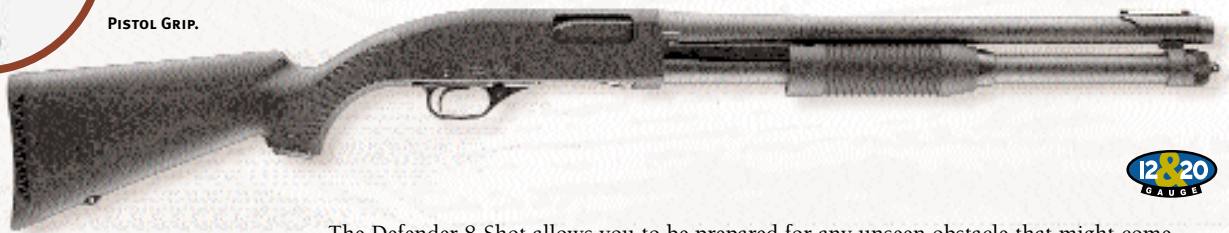

Hunting. Protection. Competition.

The new Practical Defender features a rugged black composite stock, making it tough enough for serious competition or hunting. As a true do-it-all shotgun, the Practical Defender features an accurate 22" barrel, adjustable open sights, indestructible composite stock and forearm and versatile Winchoke® system. The Practical Defender is designed for top performance in the fast-growing "practical shooting" pump shotgun events and is also perfect for camping in bear country or even an occasional grouse hunt. Additionally, it is a capable deer gun, accurately firing Foster slugs or sabots when using a Winchoke® rifled choke tube (available separately). Features an eight-round magazine. See chart on page 52.

PISTOL GRIP.

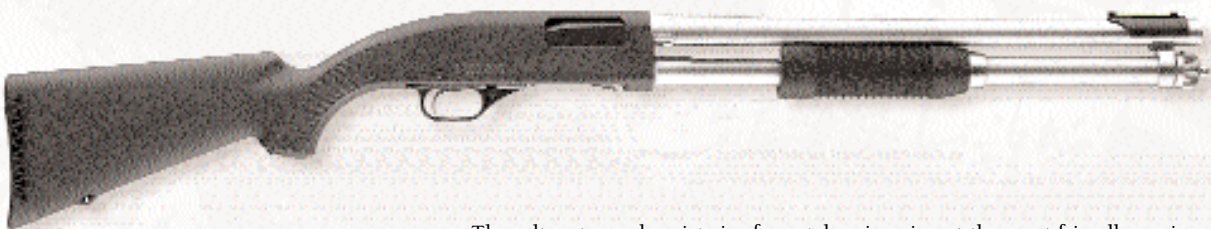

**MODEL 1300
DEFENDER 8-SHOT**

Solid performance, versatile package.

The Defender 8-Shot allows you to be prepared for any unseen obstacle that might come your way while in the backcountry. It's easy to pack and carry, and handles both buckshot and rifled slugs easily. The rugged Defender 8-Shot features an eight-shot magazine capacity, 18" cylinder bore barrel, non-glare metal surfaces and a lightweight composite stock and forearm. Choose from the full stock version with a removable front TRUGLO® fiber optic sight, the pistol grip model, or the combo version with both pistol grip and full stock included. The full stock model is available in both 12 and 20 gauge. See chart on page 52.

**MODEL 1300
COASTAL MARINE**

Be prepared on land, dock or water.

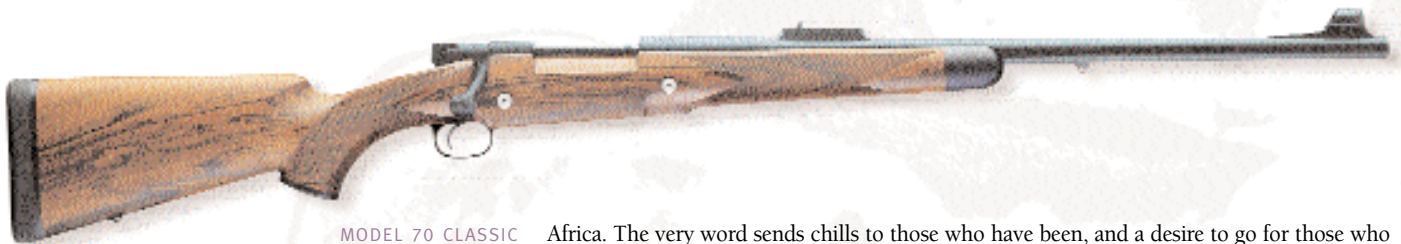

The salt water and moist air of coastal regions is not the most friendly environment for a shotgun. That's why the Coastal Marine is so popular. Designed specifically to meet the rigors of the marine environment, it has an 18" nickel-plated, stainless steel barrel, anodized aluminum alloy receiver and key parts plated for corrosion resistance. Dura-Touch® Armor Coating improves your grip on the rugged composite stock in the harshest weather. Cylinder choke with an eight-shot magazine capacity. Sling swivel studs are included. Removable front TRUGLO® fiber optic sight. See chart on page 52.

1300

*Special rifles for special hunts.
(Available in stainless steel.)*

Africa. The very word sends chills to those who have been, and a desire to go for those who haven't. Visions of wide open plains, dangerous game and finely crafted rifles dominate the imagery, which is why the Custom African Express belongs in the hands of Africa-bound hunters. Straddling the line between art and function with its semi-fancy, hand-oiled, English walnut stock with ebony grip cap and forearm tip, this rifle is exceptional in appearance and is fitted with a 1" black Pachmayr® Decelerator® pad. An "Oberndorf"-style floorplate increases magazine capacity to four. 3-leaf Express rear sight with adjustable hooded front sight. See chart on page 53.

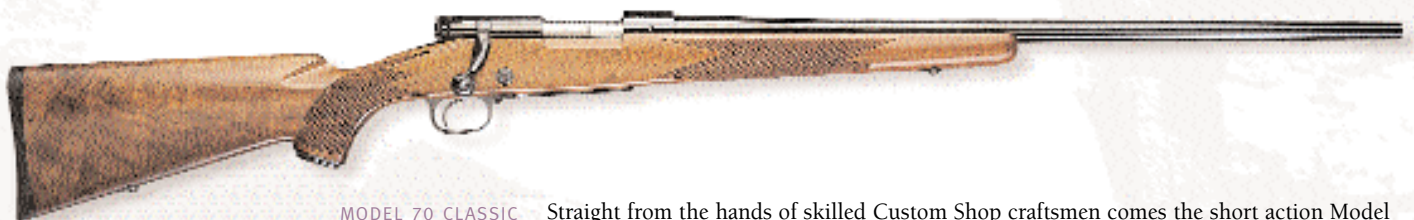

MODEL 70 CLASSIC
CUSTOM SAFARI EXPRESS

Dependable specialty rifles when you need them most.

The romanticism of a Safari is only matched by the rifle that is accompanying you. With the Custom Safari Express, you're in for a once-in-a-lifetime experience. It's easily recognized with its precise 3-leaf Express rear sight and front sight with hood. You'll admire the semi-fancy American walnut stock and elegant shadowline cheekpiece. The 1" deluxe recoil pad will be appreciated with each shot you fire. Plus, it features a custom steel one-piece trigger guard and "picture frame" floorplate with honed internal parts for both smooth looks and smooth function. Available in most popular African calibers, including a left-handed 416 Rem. Mag. See chart on page 53.

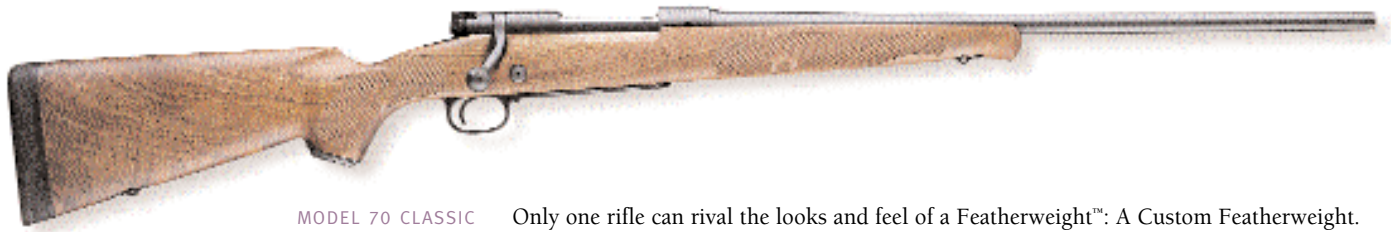

MODEL 70 CLASSIC
CUSTOM SA (SHORT ACTION)

A light, quick, hard hitting rifle.

Straight from the hands of skilled Custom Shop craftsmen comes the short action Model 70 Classic Custom SA. Beautifully assembled, the Classic Custom features a handsomely finished semi-fancy American walnut stock with shadowline cheekpiece and satin polyurethane finish. Inletted swivel bases lend a sleek, streamlined look. The classic, Controlled Round Feed action is available in most SAAMI short-action calibers including the hot 270 WSM, 7mm WSM, and 300 WSM. Also available in left-hand models. See chart on page 53.

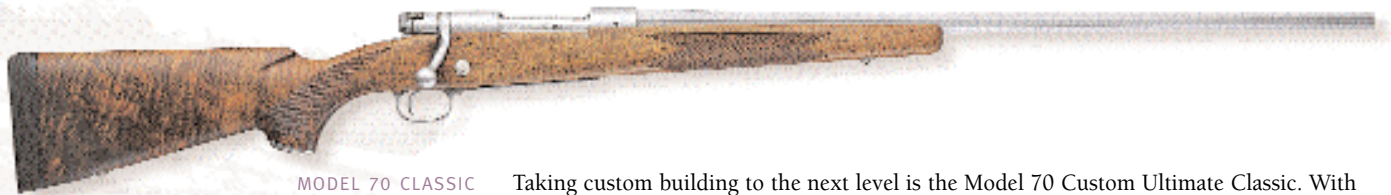

MODEL 70 CLASSIC
CUSTOM FEATHERWEIGHT™

Packs as comfortably as it shoots.

Only one rifle can rival the looks and feel of a Featherweight™: A Custom Featherweight. The classic, Controlled Round Feed Model 70 action with massive claw extractor bolt is hand-honed and matched for unbelievable smoothness. A semi-fancy American walnut stock features cut checkering, a Schnabel fore-end, and is fitted with a 1" Pachmayr® Decelerator® recoil pad and flush-mount sling swivels. Match grade 22" barrel. Calibers include the 270 Win., 280 Win. and the timeless 30-06 Sprg. in right- and left-hand versions. Three WSM calibers are offered. Available in both blued and stainless models. See chart on page 53.

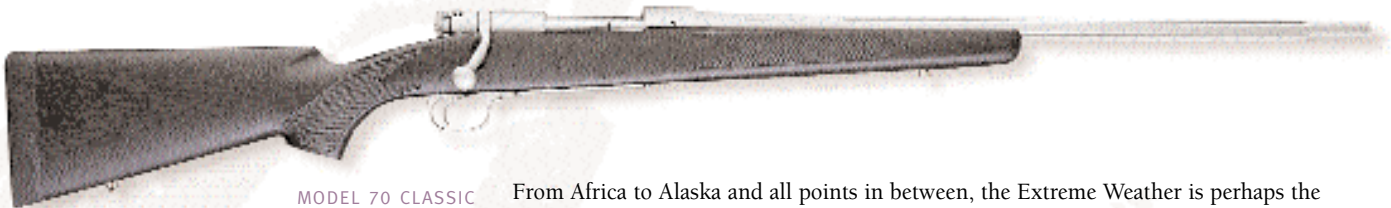

MODEL 70 CLASSIC
CUSTOM ULTIMATE CLASSIC

Order a Custom Classic; it's easier than you think.

Taking custom building to the next level is the Model 70 Custom Ultimate Classic. With an impressive list of barrel options like a round or fluted round, ½ octagon ½ round or full tapered octagon, these hand-crowned match grade barrels ensure accuracy. The fancy grade walnut stock features slim styling, a special rounded fore-end, straight cheekpiece and inletted swivel bases. A classic, Controlled Round Feed action is naturally the only foundation for a rifle of this quality. Stout one-piece steel floorplate and trigger guard. Choose blued or stainless. See chart on page 53.

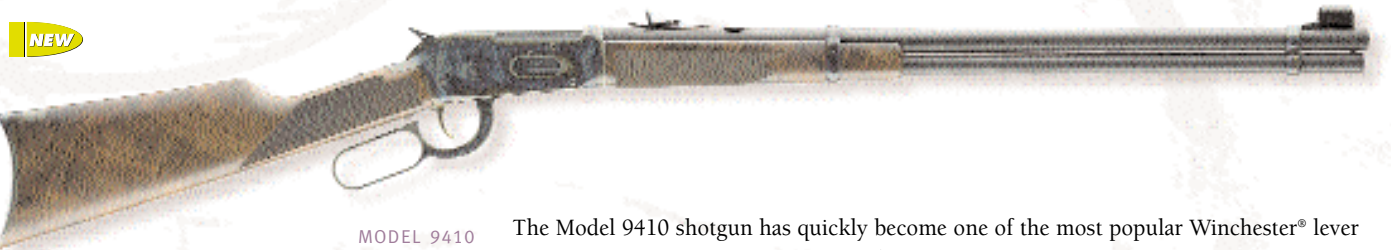

MODEL 70 CLASSIC
CUSTOM EXTREME WEATHER

*Going to Alaska? Take your Extreme Weather gear.
Now in all WSM calibers.*

From Africa to Alaska and all points in between, the Extreme Weather is perhaps the perfect rifle for the adventurous hunter. Weather-resistant, all stainless steel action and barrel are designed to withstand the effects of nature, functioning when you need them most. The lightweight McMillan fiberglass stock features a cheekpiece for better scope alignment and resists the effects of cold and humidity to maintain the rifle's impressive accuracy. A 1" Pachmayr® Decelerator® recoil pad tames this durable package. Choose from a round or fluted round match grade barrel. Available in most popular long-action calibers, and in the popular WSMs. See chart on page 53.

MODEL 9410
CUSTOM CASE-COLORED

Lever-action shotgun.

The Model 9410 shotgun has quickly become one of the most popular Winchester® lever actions ever. This deluxe Model 9410 features case coloring on the receiver, lever, steel crescent buttplate, lower tang and barrel bands for a classic appearance. The case coloring complements the satin polyurethane finished semi-fancy American walnut stock and extended forearm, both with detailed point checkering. Satin matte blueing adorns the 24" tapered round barrel and full length magazine, and a gold plated trigger is the finishing touch. In addition to the appealing looks, you'll appreciate functional features like the buckhorn rear sight, ramp-style front sight and convenient top-tang safety. See chart on page 53.

MODEL 70 WSM CUSTOM
NORTH AMERICAN BIG GAME SERIES

Only 125 made in each caliber. Sold in sets of three.

As a limited edition, the North American Big Game Series offers not only a beautiful and functional rifle, but also one worth collecting as an investment. Honoring the success of the WSM calibers and the game we pursue, the Big Game Series offers a Whitetail deer edition in 270 WSM, followed by the Elk edition in 300 WSM, then the Antelope edition in 7mm WSM. Only 125 rifles of each caliber will be produced. These gorgeous rifles are serial numbered and must be purchased in sets of three with matching serial numbers. Special features include hand-honed Controlled Round Feed pre-'64 type action, 24" chrome-moly steel, sporter weight round barrels, fancy, satin polyurethane-finished American walnut stocks with Schnabel fore-ends and front and rear inletted sling swivels. One piece steel picture frame trigger guard magazine assembly resists floorplate flex. Every rifle also features machined/hand checkered Featherweight™ checkering patterns, 1" Pachmayr® Decelerator® recoil pad, engraved steel floorplate, trigger guard and receiver. Floorplate features the respective game animal highlighted in gold, accented by a silver background and embellished with gold line borders and a high-luster blued metal finish.

CUSTOM HARD CASE.

A STURDY, ATTRACTIVE CASE IS AVAILABLE WITH THE PURCHASE OF A MODEL 70 OR MODEL 94 FROM THE CUSTOM SHOP.

NORTH AMERICAN BIG GAME SERIES:
YOU CAN OWN A SET OF THESE ELEGANTLY ENGRAVED RIFLES WITH MATCHING SERIAL NUMBERS.

94-1

94-2

MODEL 94
ENGRAVING PATTERNS

For the ultimate in Model 94 rifles, choose a unique custom version adorned with your choice of engraving patterns and gold embellishments. Custom checkering patterns may also be requested. And now, with the top-tang safety design, your collector-grade Model 94 can be embellished with the most classic and rare receiver engraving patterns in history.

CUSTOM

WINCHESTER COMPACTS: THE GUNS THAT FIT.

MODEL 70
CLASSIC COMPACT

"Smaller" should never mean compromise.

If you're a smaller adult, younger shooter, or looking for the perfect "mountain rifle," the Model 70 Classic Compact is ideal. With a short 13" length of pull, shallower stock profile and 20" barrel, the Classic Compact is easy to carry and quick to shoulder. Available in the punchy 243 Win. or 7mm-08 Rem. calibers. Controlled Round Feed action with claw extractor. See chart on page 50.

YOUNG SHOOTERS DESERVE TO HANDLE A FIREARM THAT IS BUILT FOR SMALLER FRAMES. THE FRUSTRATION IN SHOOTING A GUN THAT DOESN'T FIT CAN TURN AWAY FIRST-TIME SHOOTERS. IT IS MUCH EASIER TO TEACH A BEGINNING SHOOTER WITH A GUN THAT FITS. ON THESE PAGES ARE THE BEST SELECTION OF FIREARMS TO MEET THE CHALLENGE. EACH COMPACT MODEL HAS A SHORTER STOCK WITH UNIQUE SIZE CONSIDERATIONS TO MAKE SHOOTING A PLEASURE.

MODEL 9410
PACKER COMPACT

A great day afield for everyone.

The Model 9410 Packer Compact weighs only six pounds, making it easy to carry, shoulder and swing; while the $\frac{3}{4}$ length magazine ensures perfect balance — even when fully loaded. The length of pull is a mere 12 $\frac{1}{2}$ " , making it ideal for smaller shooters and young hunters. Where this model won't be caught short, however, is where important features are concerned. It features the versatile Invector™ choke system, allowing for a variety of shot patterns and a TRUGLO® front sight that is quick to line up with the shallow "V" notch of the rear sight. See chart on page 51.

MODEL 1300
SPORTING/FIELD COMPACT

Speed and agility in a compact package.

The Model 1300 Sporting/Field Compact pump shotgun is ideal for dedicated pump shotgun shooters. The Sporting/Field Compact has the fast, Speed Pump™ system with a shorter length of pull. High performance features like a TRUGLO® TRU-BEAD™ fiber optic front sight, mid bead, and five interchangeable WinChoke® tubes, along with the Pachmayr® Decelerator® recoil pad make this model very quick and fun to shoot. Easy-to-swing 24" ventilated-rib barrel. Four extra fiber optics in different colors are included. The most complete, compact, easy-to-swing Winchester® Model 1300 ever. See chart on page 52.

MODEL 1300
RANGER® COMPACT

Great fit, great features.

With a length of pull of just 13" , the Ranger® Compact is an affordable, comfortable shotgun for the young shooter. Drop at heel is just 2 $\frac{3}{8}$ " for better rib alignment and the inertia-assisted Speed Pump™ rotary bolt makes pumping not only much faster, but much easier. The grip area is smaller for better finger-to-trigger fit. The forearm is positioned rearward for a shorter reach, making it easier to work the action. Complete with the interchangeable WinChoke® system for excellent shot patterns. Select 12 or 20 gauge. See chart on page 52.

Model 94 and Historic Classic Tradition Rifles Notes:
 **For additional capacity, add one round in the chamber.
 1. Drops are measured from centerline of bore.
 2. Twist is right hand.
 3. All Model 94's are supplied with a hammer spur extension for use when a scope is mounted.
 4. Front sight hoods are removable.

Super X2 Notes:
 1. All Super X2 Field & Sporting Models have a total shot shell capacity of 5, plus one in the chamber. Capacity: subtract one for 3" shells or 3 1/2" shells. Practical models have a maximum magazine capacity of 8.
 2. All Super X2 Models are supplied with a choke wrench for removing and installing choke tubes.
 3. All Super X2 Models are supplied with a removable plug that limits magazine capacity to two shells (except Practical models).
 4. Practical models are choked with Standard Invector™
 5. Abbreviations: MONBU= Mossy Oak® New Break-Up® (3+) = Invector Plus™ Choke System with three choke tubes supplied; Full, Modified and Improved Cylinder, (3+) + XF = Invector-Plus Choke System with four choke tubes supplied; Full, Modified, Improved Cylinder and X-Full Turkey. +XF = Supplied with Extended X-Full Invector-Plus turkey choke tube only. Choke Tube Notes:
 1. All Non-Defender Model 1300's have a total shot shell capacity of 5 including one in the chamber. Defender Models have a total shot shell capacity of 8 & 7 in the Coastal Marine, subtract one for 3" shells in all Defender Models.
 2. All WinChoke® equipped guns are supplied with a special wrench for removing and installing choke tubes.
 3. All Model 1300's (except Defender models) supplied with a removable plug that limits magazine capacity to 2 shells.
 4. Checkering patterns may be subject to change.
 5. Prices are in U.S. dollars and are subject to change without notice.

Choke Abbreviations:
 VR = Ventilated rib.
 Smooth = Non-rifled, smoothbore, no choke
 Rifled = Fully rifled barrel, no choke.
 Cyl. = Non-WinChoke, choked Cylinder Bore.
 RS = Rifled extended tube for shooting Sabot-type slugs.
 WF = Full Choke Tube.
 WXF = X-Full Tube.
 W1C = Cylinder Choke tube, Smooth
 W3 = WinChoke, Full, Modified and Imp. Cylinder Tubes
 HDXF = High-Density X-Full turkey tube
 W1M = Modified Tube.
 WXLX = High-Density X-Full, X-Long turkey Tube
 WSW = WinChoke, Full, Improved Modified, Modified, Imp. Cylinder and Skeet

Model 1300 Notes:

See page 51.

We proudly donate a portion of the sale of every Winchester firearm to the Heritage Fund, which helps to expand the legal defense against politically motivated lawsuits against our industry. We work together to promote the rightful tradition of firearms in America.

WINCHESTER
RIFLES AND SHOTGUNS

NEW WINCHESTER FIREARMS COME FROM THE FACTORY WITH A SAFETY LOCK.

(Not shown actual size.)

Owner's manuals for all Winchester firearms in this or previous catalogs are available upon request at no charge. Owners of Winchester firearms without owner's manuals are encouraged to request one on-line or at the address below. Some models and especially calibers are made periodically only. We reserve the right to delay, postpone or discontinue production of any Winchester firearm for any reason without notice. All specifications in this catalog are subject to change without notice. Weights, stock dimensions, wood appearance, etc., may vary slightly between individual firearms. Wood is a natural product. No two pieces are alike and variation between stocks is to be expected. Winchester/U. S. Repeating Arms Co. reserves the right to modify or change specifications without notice. We do our best to make sure this catalog is accurate at the time of printing. We apologize for any errors in photographs, descriptions and specifications. Please note that the following models are or were manufactured in Japan for U.S. Repeating Arms: Models 1885, 1886, 1892, 1895, 63 and 52B. Super X2 and Select shotguns are manufactured in Belgium and assembled in Portugal. The following are trademarks of U.S. Repeating Arms Co.: Ultimate Classic, Black Shadow, Legacy, Angle Eject, Stainless Marine, Laredo, LRH, Universal Hunter, SX2, Greenhead, Select. The following trademarks are licensed from the Olin Corporation: Supreme, Super X, Super X2, Pre-'64, Big Bore, Defender, Featherweight, Super Grade, Model 70, Model 94, Model 1300, Model 1400, Model 9422, Model 1895, Model 63, Model 1892, Ranger, Super Express, Trapper, Winchester, WinChoke, WinCam, WinTuff, WinPlus, Model 12, Model 42, Model 52B, "The Gun That Won The West" and "The Rifleman's Rifle." WINCHESTER
TRIBUTE

MODELS SHOWN: ORIGINAL PRE-SERIES
PROTOTYPE AND DESIGNER'S CUTAWAY.

MODEL 9422
TRIBUTE

AFTER 33 YEARS, PRODUCTION OF THE WINCHESTER® MODEL 9422 RIFLE COMES TO AN END. FIRST PRODUCED IN 1972, THE MODEL 9422 WAS DESIGNED TO MATCH THE TIMELESS AESTHETICS OF THE CLASSIC WINCHESTER MODEL 94. NO OTHER RIMFIRE ON THE MARKET OFFERED THE SAME RUSTIC AND AUTHENTIC FEEL OF THE BYGONE COWBOY DAYS AS THE MODEL 9422. THE TRADITIONAL LEVER-ACTION DESIGN, COUPLED WITH A SOLID, WALNUT STOCK, ADJUSTABLE SIGHTS, TUBULAR MAGAZINE AND EXCEPTIONAL ACCURACY HAVE SET THIS CLASSIC RIFLE APART FROM THE COMPETITION. NOW YOU HAVE THE OPPORTUNITY TO OWN ONE OF THE MOST FAMOUS LEVER-ACTION 22 RIFLES IN HISTORY IN A SPECIAL TRIBUTE SERIES. ONLY 9,422 RIFLES IN THE TRIBUTE SERIES, AND AN ADDITIONAL 222 IN THE CUSTOM TRIBUTE SERIES WILL BE BUILT. EACH TRIBUTE RIFLE FEATURES THE SAME TIME-PROVEN CHARACTERISTICS THAT MADE THE 9422 FAMOUS, BUT ARE ENHANCED BY BEAUTIFUL WALNUT STOCKS AND FOREARMS. EACH MODEL ALSO FEATURES SPECIAL ENGRAVING, DEPICTING A TRIBUTE TO THE 9422 AND THE FAMOUS WINCHESTER HORSE AND RIDER, MAKING THE 9422 TRIBUTE SERIES ONE OF THE MOST BEAUTIFUL RIMFIRES EVER BUILT. SECURE FUTURE MEMORIES NOW WITH ONE OF THE MOST BELOVED RIFLES EVER MADE. THE MODEL 9422 TRIBUTE SERIES: A ONCE-IN-A-LIFETIME RIFLE.
